See accompanying notes to condensed consolidated financial statements.

Notes to Condensed Consolidated Financial Statements
(In thousands except share and per share amounts) (Unaudited)

1. Basis of Presentation

The December 31, 2007 condensed consolidated balance sheet amounts have been derived from the previously audited consolidated balance sheet of Kaman Corporation and subsidiaries. In the opinion of management, the balance of the condensed financial information reflects all adjustments which are necessary for a fair presentation of the company's financial position, results of operations and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature, unless otherwise disclosed in this report. Certain amounts in prior period condensed consolidated financial statements have been reclassified to conform to current year presentation. The statements should be read in conjunction with the consolidated financial statements and notes included in the company's Form 10-K for the year ended December 31, 2007. The results of operations for the interim periods presented are not necessarily indicative of trends or of results to be expected for the entire year.

The company has a calendar year-end; however, its first three fiscal quarters follow a 13-week convention, with each quarter ending on a Friday. The third quarter for 2008 and 2007 ended on September 26, 2008 and September 28, 2007, respectively.

In July 2008, the Fuzing segment changed its name to the Precision Products segment.

Recently Issued Accounting Pronouncements

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162, "The Hierarchy of Generally Accepted Accounting Principles" (SFAS 162). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles". The company is currently evaluating the potential impact of SFAS 162 but does not anticipate that the impact will be material.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133" (SFAS 161). Under this standard, companies with derivative instruments are required to disclose information that enables financial statement users to understand how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under Statement 133, and how derivative instruments and related hedged items affect a company's financial position, financial performance, and cash flows. The new standard must be applied prospectively for interim periods and fiscal years beginning after November 15, 2008. The company is currently evaluating the potential impact of SFAS 161 but does not anticipate that the impact will be material.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), "Business Combinations" (SFAS 141(R)). The objective of this Statement is to improve the relevance and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. To accomplish that, SFAS 141(R) establishes principles and requirements for how the acquirer (a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; (b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and (c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The potential impact of SFAS 141(R) on our consolidated financial position, results of operations and cash flows will be dependent upon the terms, conditions and details of such acquisitions.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, “Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51” (SFAS 160). The objective of SFAS 160 is to improve the relevance, comparability, and transparency of the financial information that a reporting entity provides in its consolidated financial statements. This Statement amends ARB No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. Since we currently do not have any minority interest investments, we do not expect SFAS 160 will have an impact on our consolidated financial position, results of operations or cash flows.

Cash Flow Items

Cash payments for interest were \$1,714 and \$5,140 for the nine months ended September 26, 2008 and September 28, 2007, respectively. Cash payments for income taxes, net of refunds, for the comparable periods were \$28,117 and \$25,422, respectively. Non-cash investing activity for the first nine months of 2008 includes the purchase of the Navy property in exchange for the assumption of an estimated environmental remediation liability of \$10,258. Non-cash financing activity for the first nine months 2007 includes the conversion of 2,341 debentures with a total value of \$2,341 into 100,202 shares of common stock. There were no such conversions during 2008 as the outstanding debentures were fully redeemed in December 2007.

2. Goodwill Impairment

During the second quarter of 2008, our Aerostructures Wichita, KS facility continued to experience production and quality issues, which, along with circumstances unique to each contract, resulted in the separate termination of two long-term contracts with Spirit AeroSystems and Shenyang Aircraft Corporation. These contracts, which were significant to the facility, were both loss contracts. In accordance with Statement of Financial Accounting Standards No. 142, “Goodwill and Other Intangible Assets” (“SFAS 142”), we test goodwill for potential impairment annually as of December 31 and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Due to the loss of the two major contracts as well as the continuing production and quality issues, management performed a goodwill impairment analysis for this reporting unit as of June 27, 2008.

We evaluated goodwill for impairment using the two-step process prescribed in SFAS 142. The first step is to identify potential impairment by comparing the fair value of a reporting unit to its book value, including goodwill. If the fair value of a reporting unit exceeds its book value, goodwill is not considered impaired. If its book value exceeds its fair value, the second step of the process is performed to measure the amount of impairment. The process of evaluating goodwill for impairment involves the determination of the fair value of the reporting unit and is based on several valuation methods including the market approach and income approach. Inherent in such fair value determinations are certain judgments and estimates relating to future cash flows, including our interpretation of current economic indicators and market valuations, and assumptions about our strategic plans with regard to the operations of our reporting units.

Although we believe that we are working through the production issues at our Aerostructures Wichita facility, its carrying value had increased significantly during the second quarter of 2008. This, combined with our loss of two long-term contracts and the quality and production issues at the facility, created a situation in which the estimated fair value of this reporting unit (the legal entity Plastic Fabricating Company, Inc.) was less than its carrying value. The resulting total non-cash goodwill impairment charge was \$7,810, which represented the entire goodwill balance for this reporting unit prior to the charge. This charge is not deductible for tax purposes and represents a discrete item in our second quarter 2008 effective tax rate.

3. Acquisitions

On June 12, 2008, our Aerostructures segment acquired the stock of Brookhouse Holdings, Limited, a leader in the design and manufacture of composite aerostructures, aerospace tooling, and repair and overhaul services based in Darwen, Lancashire, England. The purchase price was 43,000 pounds sterling (\$85,086 based on an exchange rate of 1.98) in cash. The acquisition further diversifies our platform positions in both the military and commercial markets, and significantly enhances our position in the higher-growth markets for composite structures.

On March 31, 2008, our Industrial Distribution segment acquired the stock of Industrial Supply Corp (ISC), a distributor of power transmission, fluid power, material handling and industrial MRO supply products to such diverse markets as ship building, printing, machinery, transportation, electronics, pharmaceutical, rubber, chemicals and food processing. In addition to its Richmond facility, ISC has five other branches located in Norfolk, Roanoke and Waynesboro, Virginia, and in Wilson and High Point, North Carolina.

Both acquisitions were accounted for as purchase transactions. Accordingly, the purchase price was allocated to the assets acquired and liabilities assumed based on estimates of fair value. The excess of the purchase price over the fair value of the net assets acquired, including intangible assets, has been allocated to goodwill. The purchase accounting for these acquisitions is preliminary. The operating results for Brookhouse and ISC have been included in our consolidated financial statements from the date of acquisition.

4. Loss on Ineffective Derivative Instrument

In connection with the acquisition of Brookhouse, the company assumed two foreign currency hedge contracts originally intended to hedge forecasted cash flows on a significant US dollar denominated contract. During the third quarter of 2008, the company determined that these hedges were ineffective, and that they no longer met the criteria for accounting under SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities", due to a significant shift in the timing of the forecasted cash flows. Therefore, the company cancelled the contracts near the end of September, which resulted in a loss of \$1,587 that has been included in non-operating income in our consolidated statements of operations. The company's policy is to include the gain or loss on effective hedges in the same account as the items being hedged and to include gains and losses on ineffective or unhedged items in non-operating income.

5. Accounts Receivable, net

Accounts receivable consist of the following:

	<u>September 26, 2008</u>	<u>December 31, 2007</u>
Trade receivables	\$ 92,691	\$ 74,057
U.S. Government contracts:		
Billed	34,919	20,852
Costs and accrued profit – not billed	6,782	6,190
Commercial and other government contracts:		
Billed	37,461	17,740
Costs and accrued profit – not billed	40,889	41,407
Less allowance for doubtful accounts	<u>(1,999)</u>	<u>(1,811)</u>
Total	<u>\$ 210,743</u>	<u>\$ 158,435</u>

On March 19, 2008, the company and the Commonwealth of Australia reached an agreement relative to the termination of the SH-2G(A) Super Seasprite Program. The unbilled receivables associated with the SH-2G(A) program were \$40,750 and \$40,789 as of September 26, 2008 and December 31, 2007, respectively, and the balance of amounts received as advances on this contract were \$7,998 and \$7,511 as of September 26, 2008, and December 31, 2007, respectively. These balances, totaling a net \$32,752, as of September 26, 2008, will be eliminated in connection with the transfer of the Australian program inventory and equipment to the company, which transfer is subject to approval by the U.S. Government. Additional detail relative to this agreement is provided in Note 15, Commitments and Contingencies.

6. Inventories

Inventories consist of the following:

	<u>September 26, 2008</u>	<u>December 31, 2007</u>
Merchandise for resale	\$ 98,449	\$ 93,949
Contracts and other work in process	130,260	103,004
Finished goods (including certain general stock materials)	18,388	13,388
Total	<u>\$ 247,097</u>	<u>\$ 210,341</u>

We continue to support K-MAX helicopters that are operating with customers. As of September 26, 2008, we maintained \$24,361 of K-MAX inventory, which includes a K-MAX aircraft repurchased in the first quarter of 2008, as well as spare parts. Total K-MAX inventory as of December 31, 2007 was \$19,568.

7. Shareholders' Equity

Changes in shareholders' equity for the nine months ended September 26, 2008 were as follows:

Balance, January 1, 2008	\$ 394,526
Net earnings	28,811
Change in pension & post-retirement benefit plans, net	1,790
Foreign currency translation adjustment	(4,569)
Comprehensive income	<u>26,032</u>
Dividends declared	(10,659)
Employee stock plans and related tax benefit	<u>5,756</u>
Balance, September 26, 2008	<u>\$ 415,655</u>

Comprehensive income was \$26,032 and \$35,731 for the nine months ended September 26, 2008 and September 28, 2007, respectively. The changes to net earnings used to determine comprehensive income are comprised of foreign currency translation adjustments and net changes in pension and post-retirement benefit plans.

Shareholders' equity consists of the following:

	<u>September 26, 2008</u>	<u>December 31, 2007</u>
Common stock	\$ 25,499	\$ 25,182
Additional paid-in capital	84,245	78,783
Retained earnings	280,570	262,417
Treasury stock	(435)	(411)
Other shareholders' equity	<u>25,776</u>	<u>28,555</u>
Total	<u>\$ 415,655</u>	<u>\$ 394,526</u>

8. Earnings Per Share

The following table presents a reconciliation of the numerators and denominators of basic and diluted earnings per share:

(In thousands except per share amounts)

	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Basic:				
Net earnings from continuing operations	\$ 13,530	\$ 9,437	\$ 28,488	\$ 27,517
Net earnings from discontinued operations, net of tax	-	2,300	323	4,354
Net earnings	<u>\$ 13,530</u>	<u>\$ 11,737</u>	<u>\$ 28,811</u>	<u>\$ 31,871</u>
Weighted average number of shares outstanding	<u>25,265</u>	<u>24,438</u>	<u>25,199</u>	<u>24,288</u>
Net earnings per share from continuing operations	\$ 0.54	\$ 0.39	\$ 1.13	\$ 1.13
Net earnings per share from discontinued operations	-	0.09	-	0.18
Net earnings per share from disposal of discontinued operations	-	-	0.01	-
Net earnings per share	<u>\$ 0.54</u>	<u>\$ 0.48</u>	<u>\$ 1.14</u>	<u>\$ 1.31</u>
Diluted:				
Net earnings from continuing operations	\$ 13,530	\$ 9,437	\$ 28,488	\$ 27,517
Elimination of interest expense on 6% subordinated convertible debentures (net after taxes)	-	125	-	416
Net earnings from continuing operations (as adjusted)	<u>13,530</u>	<u>9,562</u>	<u>28,488</u>	<u>27,933</u>
Net earnings from discontinued operations, net of tax	-	2,300	323	4,354
Net earnings (as adjusted)	<u>\$ 13,530</u>	<u>\$ 11,862</u>	<u>\$ 28,811</u>	<u>\$ 32,287</u>
Weighted average number of shares outstanding	25,265	24,438	25,199	24,288
Weighted averages shares issuable on conversion of 6% subordinated convertible debentures	-	567	-	627
Weighted average shares issuable on exercise of dilutive stock options	<u>283</u>	<u>331</u>	<u>280</u>	<u>302</u>
Total	<u>25,548</u>	<u>25,336</u>	<u>25,479</u>	<u>25,217</u>
Net earnings per share from continuing operations - diluted	\$ 0.53	\$ 0.38	\$ 1.12	\$ 1.11
Net earnings per share from discontinued operations - diluted	-	0.09	-	0.17
Net earnings per share from disposal of discontinued operations - diluted	-	-	0.01	-
Net earnings per share -diluted	<u>\$ 0.53</u>	<u>\$ 0.47</u>	<u>\$ 1.13</u>	<u>\$ 1.28</u>

Excluded from the net earnings per share – diluted calculation for the three months and nine months ended September 26, 2008 are 278,517 and 242,260 anti-dilutive shares, respectively, granted to employees, based on average stock price.

There were no anti-dilutive shares for the three months and nine months ended September 28, 2007.

9. Environmental Costs

The following table displays the activity and the accrued balances of various environmental liabilities as of and for the nine months ended September 26, 2008:

Balance at January 1, 2008	\$	4,705
Additions to accrual		10,404
Cash payments		(191)
Release to income		-
Balance at September 26, 2008	\$	<u>14,918</u>

In August 2008, the company completed its purchase of the portion of the Bloomfield campus that Kaman Aerospace Corporation (of which the Helicopters segment forms a part) had leased from NAVAIR for many years. In connection with the purchase, we have assumed responsibility for environmental remediation at the facility as may be required under the Connecticut Transfer Act (the "Transfer Act") and we continue the effort to define the scope of the remediation that will be required by the Connecticut Department of Environmental Protection (CTDEP). The entire transaction was recorded based on the discounted present value of the liability to be assumed. The fair value of the Navy Property asset, which approximates the discounted present value of the assumed environmental liability of \$10,258, has been included in Property, Plant and Equipment as of September 26, 2008. This remediation process will take many years to complete.

The accrual also includes estimated ongoing environmental remediation costs for our idle Moosup, CT facility and environmental remediation costs that we expect to incur at the former Music segment New Hartford, Connecticut facility, which arose in connection with the 2007 sale of our Music segment. Additionally, the company accrued \$146 for environmental investigation at our recently acquired Brookhouse facilities. This accrual may increase as the results from our environmental audits are completed.

The accrual is included in other accruals and payables and other long-term liabilities on the condensed consolidated balance sheets for the periods presented. Ongoing maintenance costs, primarily for the Moosup facility, of \$345 for both the nine months ended September 26, 2008 and September 28, 2007, are included in selling, general and administrative expenses.

10. Product Warranty Costs

The following table presents the activity and balances of accrued product warranty costs included in other accruals and payables on the condensed consolidated balance sheets as of September 26, 2008:

Balance at January 1, 2008	\$	1,087
Product warranty accrual		104
Warranty costs incurred		(82)
Release to income		(10)
Balance at September 26, 2008	\$	<u>1,099</u>

The company has been working to resolve two warranty-related matters at the Precision Products (formerly Dayron) Orlando facility. The first issue involves a supplier's recall of a switch embedded in certain bomb fuzes. The second warranty issue involves bomb fuzes manufactured for the U. S. Army utilizing systems which originated before this entity was acquired by the company that have since been found to contain an incorrect part. The net reserve as of September 26, 2008 related to these two matters is \$1,032. This matter is more fully discussed in Note 15, Commitments and Contingencies.

The remainder of the accrual as of September 26, 2008 relates to routine warranty rework at our various segments.

11. Accrued Contract Losses

The following is a summary of activity and balances associated with accrued contract losses as of and for the nine months ended September 26, 2008:

Balance at January 1, 2008	\$	9,513
Additions to loss accrual		5,525
Costs incurred		(4,190)
Release to income		(418)
Balance at September 26, 2008	\$	<u>10,430</u>

Additions to our contract loss accrual relate primarily to cost growth in connection with certain programs in the Aerostructures segment for the Sikorsky Canadian MH-92 program as well as the Precision Products segment for certain options of the JPF fuze program. The remaining balance of the contract loss accrual relates primarily to the SH-2G(A) program for Australia. We are in the process of assessing what portion of those expenses will still be incurred if the program is concluded as contemplated by the settlement agreement with the Commonwealth of Australia. When title to the inventory is transferred to the company, effectively concluding the program, we will adjust the accrued contract loss as necessary.

12. Pension Cost

Components of net pension cost for the qualified pension plan and Supplemental Employees' Retirement Plan (SERP) are as follows:

	Qualified Pension Plan			
	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Service cost for benefits earned	\$ 3,069	\$ 3,329	\$ 9,207	\$ 9,988
Interest cost on projected benefit obligation	7,338	6,931	22,014	20,792
Expected return on plan assets	(8,681)	(8,074)	(26,043)	(24,222)
Effect of settlement/curtailment	-	-	-	-
Net amortization and deferral	15	225	46	676
Net pension cost	<u>\$ 1,741</u>	<u>\$ 2,411</u>	<u>\$ 5,224</u>	<u>\$ 7,234</u>

	SERP			
	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Service cost for benefits earned	\$ 184	\$ 116	\$ 553	\$ 348
Interest cost on projected benefit obligation	443	505	1,232	1,515
Expected return on plan assets	-	-	-	-
Effect of settlement/curtailment	1,381	-	2,387	-
Net amortization and deferral	209	883	915	2,648
Net pension cost	<u>\$ 2,217</u>	<u>\$ 1,504</u>	<u>\$ 5,087</u>	<u>\$ 4,511</u>

For the 2008 plan year, the company expects to contribute \$6,966 to the qualified pension plan of which \$3,483 was made through September 26, 2008. We expect to make payments of \$13,971 for the SERP during 2008, \$13,051 of which was made in the first nine months of this year, most of which was for two lump sum payments to the former CEO. Each of these payouts represented a portion of the SERP's projected benefit obligation sufficient to constitute a plan settlement per SFAS 88, "Employer's Accounting for Settlements and Curtailments of Defined Benefit Pension Plans." Because the retirement occurred after the company's pension measurement date of December 31, and in accordance with SFAS 88 settlement accounting, liabilities related to the supplemental plan were remeasured as of February and August 2008 with the related deferred actuarial losses being recognized in the first nine months of 2008. For 2007, payments for the pension plan were \$10,000 and \$2,396 for the SERP.

13. Business Segments

Summarized financial information by business segment is as follows:

	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Net sales:				
Aerostructures	\$ 44,047	\$ 25,713	\$ 103,784	\$ 74,214
Precision Products	32,599	22,104	83,965	64,566
Helicopters	17,373	18,220	50,092	54,703
Specialty Bearings	36,839	30,729	109,585	94,179
Subtotal Aerospace Segments	130,858	96,766	347,426	287,662
Industrial Distribution	204,275	178,090	589,773	526,106
Net sales from continuing operations	<u>\$ 335,133</u>	<u>\$ 274,856</u>	<u>\$ 937,199</u>	<u>\$ 813,768</u>
Operating income (loss):				
Aerostructures*	\$ 173	\$ 1,631	\$ (7,090)	\$ 9,862
Precision Products	3,598	2,687	6,283	9,232
Helicopters	3,453	2,283	7,177	1,014
Specialty Bearings	13,641	10,859	40,550	31,622
Subtotal Aerospace Segments	20,865	17,460	46,920	51,730
Industrial Distribution	10,704	9,045	29,512	26,043
Net gain (loss) on sale of assets	301	1	94	15
Corporate expense	(7,422)	(9,498)	(23,704)	(28,997)
Operating income from continuing operations	24,448	17,008	52,822	48,791
Interest expense (income), net	1,073	1,672	1,535	4,872
Loss on derivative contract	1,587	-	1,587	-
Other expense (income), net	658	75	1,120	291
Earnings from continuing operations before income taxes	21,130	15,261	48,580	43,628
Income tax expense	(7,600)	(5,824)	(20,092)	(16,111)
Net earnings from continuing operations	13,530	9,437	28,488	27,517
Net earnings from discontinued operations, net of taxes	-	2,300	-	4,354
Gain on disposal of discontinued operations, net of taxes	-	-	323	-
Net earnings	<u>\$ 13,530</u>	<u>\$ 11,737</u>	<u>\$ 28,811</u>	<u>\$ 31,871</u>

* Includes a non-cash impairment charge of \$7,810 during the nine months ended September 26, 2008

14. Share-Based Arrangements

The following table summarizes share-based compensation expense recorded during each period presented:

	Three Months Ended		Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Stock options	\$ 163	\$ 701	\$ 973	\$ 1,136
Restricted stock awards	234	132	1,269	762
Stock appreciation rights	410	253	(426)	1,237
Employee stock purchase plan	52	54	155	162
Total share-based compensation expense	<u>\$ 859</u>	<u>\$ 1,140</u>	<u>\$ 1,971</u>	<u>\$ 3,297</u>

Stock option activity was as follows:

Stock options outstanding:		Weighted-Average Exercise Price
Balance at January 1, 2008	724,790	\$ 16.01
Options granted	205,245	25.60
Options exercised	(178,468)	15.31
Options forfeited or expired	(7,330)	17.29
Balance at September 26, 2008	<u>744,237</u>	<u>\$ 18.82</u>

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model. The following table indicates the weighted average assumptions used in estimating fair value for the three months and nine months ended September 26, 2008 and September 28, 2007.

	Three Months Ended		Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Expected option term	6.5 years	-	6.5 years	6.5 years
Expected volatility	44.4%	-	41.0%	36.2%
Risk-free interest rate	3.4%	-	3.2%	4.6%
Expected dividend yield	1.9%	-	1.8%	2.5%
Per share fair value of options granted	<u>\$ 8.76</u>	<u>-</u>	<u>\$ 9.70</u>	<u>\$ 8.04</u>

Restricted Stock Awards (RSA) activity was as follows:

Restricted Stock outstanding:		Weighted-Average Grant Date Fair Value
Nonvested at January 1, 2008	89,009	\$ 24.04
RSA granted	120,545	26.88
Vested	(56,228)	28.32
Forfeited or expired	(3,203)	24.14
Nonvested at September 26, 2008	<u>150,123</u>	<u>\$ 24.72</u>

Stock Appreciation Rights (SARs) activity was as follows:

SARs outstanding:		Weighted-Average Exercise Price
Balance at January 1, 2008	66,120	\$ 10.15
SARs granted	-	-
SARs exercised	(26,420)	9.90
SARs forfeited or expired	-	-
Balance at September 26, 2008	39,700	\$ 10.32

Total cash paid to settle SARs (at intrinsic value) exercised during the third quarter of 2008 and 2007 was \$344 and \$170, respectively. Total cash paid to settle SARs (at intrinsic value) for the first nine months of 2008 and 2007 was \$533 and \$1,212, respectively.

15. Commitments and Contingencies

Australian SH-2G(A) Program - As previously reported, in March 2008, the company and the Commonwealth of Australia signed a settlement agreement which terminates the SH-2G(A) Super Seasprite program on mutually agreed terms. The agreement provides that ownership of the 11 SH-2G(A) Super Seasprite helicopters (along with spare parts and associated equipment) will be transferred to the company and, thereafter, proceeds from each helicopter sale will be shared on a predetermined basis. U.S. Government (USG) approval is required for both physical transfer and ownership transfer of the aircraft and equipment. The USG's approval for physical transfer was obtained during the second quarter and the parties are now coordinating efforts to achieve shipment of the aircraft and equipment to the U.S., after which USG approval of the Commonwealth's transfer of ownership will be requested. Management is hopeful that such approval and the actual transfer of ownership will occur on or before December 31, 2008.

In connection with sharing sale proceeds, we have agreed that total payments of at least \$39.5 million (AUS) will be made to the Commonwealth regardless of sales, with at least \$26.7 million (AUS) to be paid by March 2011, and, to the extent cumulative payments have not yet reached \$39.5 million (AUS), additional payments of \$6.4 million (AUS) each in March of 2012 and 2013. To secure these payments, at the date of ownership transfer as described above, the company will provide the Commonwealth with a \$39.5 million (AUS) unconditional letter of credit which will be reduced as such payments are made. Additionally, under the agreement, we will forego payment of approximately \$33 million in net unbilled receivables in exchange for the helicopters, spare parts and equipment, which will be recorded as inventory. We currently expect that the value of this transferred inventory will exceed the amount of the net unbilled receivables and the guaranteed payments described above. The transaction will be recorded as of the date of ownership transfer and we do not currently expect that it will have a material impact on the statement of operations. The termination of the contract, combined with the return of inventory, will result in our inability to claim look-back interest from the IRS, previously expected to exceed \$6 million pretax. Additionally, sales relative to the service center, which have been a meaningful portion of Helicopters segment net sales in recent years, effectively will end at the conclusion of the support center ramp down period, which will occur during the fourth quarter of 2008.

Moosup - The CTDEP has given the company conditional approval for reclassification of groundwater in the vicinity of the Moosup, CT facility consistent with the character of the area. This facility is currently being held for disposal. The company has substantially completed the process of connecting neighboring properties to public drinking water in accordance with such approval and in coordination with the CTDEP and local authorities. The company anticipates that the water connection project will be completed in the late 2008/early 2009 timeframe. A site assessment to characterize the environmental condition of the property has also commenced.

Ovation - In connection with our sale of the Music segment, we assumed responsibility for meeting certain requirements of the Transfer Act that apply to the leased guitar manufacturing facility ("Ovation") located in New Hartford, Connecticut, which was transferred as part of the sale. Under the Transfer Act, we are required to assess the environmental conditions of the site and remediate environmental impairments, if any, caused by Ovation's operations. The site consists of a multi-tenant industrial park, in which Ovation and other unrelated entities lease space. We continue the process of assessing the environmental conditions at the site and determining our share of the cost of environmental remediation that may be required. Our current estimate of our portion of the cost to assess the environmental conditions and remediate this property is \$2.2 million, unchanged from previously reported estimates.

Legal Matters - There continue to be two warranty-related matters that impact the FMU-143 program at our Precision Products Orlando operation. The items involved are an impact switch embedded in certain bomb fuzes that was recalled by a supplier and an incorrect part, called a bellows motor, found to be contained in bomb fuzes manufactured for the U.S. Army utilizing systems which originated before the Orlando operation was acquired by Kaman. The U.S. Army Sustainment Command (USASC), the procurement agency that administers the FMU-143 contract, had authorized warranty rework for the bellows motor matter in late 2004/early 2005; however, we were not permitted to finish the rework due to issues raised by the USASC primarily related to administrative matters and requests for verification of the accuracy of test equipment (which accuracy was subsequently verified).

In late 2006, the USASC informed us that it was changing its remedy under the contract from performance of warranty rework to an "equitable adjustment" of \$6.9 million to the contract price. We responded, explaining our view that we had complied with contract requirements. In June 2007 the USASC affirmed its position but rescinded its \$6.9 million demand (stating that its full costs had not yet been determined) and gave instructions for disposition of the subject fuzes, including both the impact switch and bellows motor related items, to a Navy facility and we complied with that direction. To date, USASC has not made a demand for any specific amount.

As reported previously, a separate contract dispute between our Precision Products Orlando operation and the USASC relative to the FMU-143 fuze program is now in litigation. The USASC has basically alleged the existence of latent defects in certain fuzes due to unauthorized rework during production and has sought to revoke their acceptance. Management believes that the Precision Products segment has performed in accordance with the contract and it is the government that has materially breached its terms; as a result, during the fourth quarter of 2007, we cancelled the contract and in January 2008, we commenced litigation before the Armed Services Board of Contract Appeals (the "Board") requesting a declaratory judgment that our cancellation was proper. At about the same time, the USASC notified us that it was terminating the contract for default, making the allegations noted above. We have filed a second complaint with the Board appealing the USASC's termination decision. The litigation process is ongoing.

16. Subsequent Events

On October 7, 2008, the company announced that its subsidiary, Kaman Industrial Technologies Corporation, has acquired the stock of Industrial Rubber & Mechanics, Inc. ("INRUMEC") of Puerto Rico. INRUMEC, founded in 1963, is a distributor of fluid power products; industrial and hydraulic hoses; belting and conveyer systems; pipe, tube, fittings and valves; and packaging machinery to such diverse markets as food, beverage, pharmaceutical, cement and aggregate. The company is also a manufacturer of hydraulic hose assemblies for the same end markets. The company has a branch and regional distribution facility in Gurabo as well as branches located in Bayamón, Ponce and Mayaguez. The company has annual sales of approximately \$13 million.

On October 29, 2008, the Company and The Bank of Nova Scotia, Bank of America, N.A., Fifth Third Bank, and RBS Citizens, N.A. (collectively the "Banks") executed a Term Loan Credit Agreement. The Term Loan Agreement, which is in addition to our current Revolving Credit Agreement, is a \$50 million facility with a four-year term, including quarterly payments of principal at the rate of 2.5% with 62.5% of the initial aggregate principal payable in the final quarter. The company may increase the term loan, up to an aggregate of \$50 million, with additional commitments from Banks or new commitments from acceptable financial institutions. Additionally, the covenants required of the Company are the same as those in place under the Revolving Credit Agreement. In conjunction with this agreement, the current Revolving Credit Agreement was amended to acknowledge the existence of the Term Loan Credit Agreement and adopts certain provisions of the Term Loan Credit Agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide readers of our consolidated financial statements with the perspectives of management in the form of a narrative regarding our financial condition, results of operations, liquidity and certain other factors that may affect our future results. The MD&A is presented in seven sections:

- I. Overview of Business
- II. Recent Business and Financial Highlights
- III. Results of Operations
- IV. Critical Accounting Estimates
- V. Liquidity and Capital Resources
- VI. Contractual Obligations and Off-Balance Sheet Arrangements
- VII. Recent Accounting Standards

Our MD&A should be read in conjunction with our Form 10-K for the year ended December 31, 2007.

I. OVERVIEW OF BUSINESS

Kaman Corporation is composed of five business segments:

- Aerostructures, a provider of subassemblies for commercial and military aircraft;
- Precision Products (formerly called "Fuzing"), a producer of fuzing devices and memory and measuring systems for a variety of applications;
- Helicopters, a provider of upgrades and support for its existing fleet as well as a subcontractor for other aerospace manufacturers;
- Specialty Bearings, a manufacturer of high-performance mechanical products used primarily in aviation applications as well as marine, hydropower, and other industrial applications; and
- Industrial Distribution, the third largest power transmission/motion control industrial distributor in North America.

There are specific long-term strategies for each segment. For our aerospace businesses, we seek to maintain leadership in product technical performance, take advantage of opportunities arising from the prime and Tier 1 producers as they outsource aircraft production tasks, and build on our strengths in areas targeted for growth through internal product development and acquisitions. For our industrial distribution business, our long-term strategy involves acquisitions and internal means to expand our geographical footprint in major industrial markets and broaden our product lines to enhance our competitive position for national accounts.

II. RECENT BUSINESS AND FINANCIAL HIGHLIGHTS

The following is a summary of key events that recently occurred:

- Our net sales from continuing operations increased 21.9 percent in the third quarter of 2008 compared to the third quarter of 2007.
- Our net earnings from continuing operations increased 43.4 percent in the third quarter of 2008 compared to the third quarter of 2007.
- Earnings per share diluted from continuing operations rose to \$0.53 per share diluted in the third quarter of 2008, an increase of 39.5 percent compared to the third quarter of 2007.
- The Industrial Distribution and Specialty Bearings segments experienced strong growth in sales and operating profit.
- Our Precision Products segment continued to ramp up on the JPF program and produced and shipped above its planned level for the quarter.
- In August 2008, the company completed its purchase of the portion of the Bloomfield campus that Kaman Aerospace Corporation (of which the Helicopters segment forms a part) had leased from NAVAIR for many years.
- On October 29, 2008, the company entered into a 4-year Term Loan Credit Agreement with various banks for \$50 million.
- In early October, our Industrial Distribution segment acquired Industrial Rubber and Mechanics, Incorporated (INRUMEC) of Puerto Rico.

III. RESULTS OF OPERATIONS

RESULTS OF OPERATIONS - CONSOLIDATED

The following tables present selected financial data from continuing operations of the company:

Net Sales

In thousands	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Net sales	\$ 335,133	\$ 274,856	\$ 937,199	\$ 813,768
\$ change	60,277	22,767	123,431	72,592
% change	21.9%	9.0%	15.2%	9.8%

The increase in consolidated net sales for the third quarter of 2008 was driven by both organic sales growth and additional sales attributable to the two companies (ISC and Brookhouse) acquired in the second quarter of 2008. The increase in net sales for the first nine months of 2008 was primarily attributable to organic growth in all reporting segments except for the Helicopters segment as well as the acquisitions in the Aerostructures and Industrial Distribution segments. In the aerospace businesses, organic sales growth resulted from increased shipments for major programs and customers, specifically the Sikorsky cockpit program and the JPF fuze program. In the Industrial Distribution segment, sales to several new large national accounts, as well as the acquisition of ISC, contributed to the increase for 2008 compared to 2007.

Gross Profit

In thousands	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Gross profit	\$ 88,873	\$ 76,457	\$ 251,736	\$ 226,202
\$ change	12,416	7,936	25,534	23,522
% change	16.2%	11.6%	11.3%	11.6%
% of net sales	26.5%	27.8%	26.9%	27.8%

The change in consolidated gross profit for the third quarter of 2008 was attributable to several factors. Gross profit increased in the Industrial Distribution and Specialty Bearings segments primarily from higher sales volume. Gross profit also increased for the Helicopters segment primarily due to the absence of Australian SH-2G(A) program charges in 2008, in contrast with the \$0.8 million charge in the prior year third quarter. Gross profit remained essentially unchanged at both the Aerostructures and Precision Products segments due to the continued charges at the Aerostructures Wichita facility and a higher level of sales volume to the US Government for JPF fuzes, which generate essentially break-even gross profit.

Gross profit for the first nine months of 2008 increased primarily due to the increased sales volume at the Industrial Distribution and Specialty Bearings segments and the absence of Australia SH-2G(A) program charges compared to the \$5.6 million in charges recorded in the first nine months of 2007. These positive results were partially offset by the less favorable product mix for the Precision Products segment and the charges, excluding goodwill, that were recorded at the Aerostructures Wichita facility as discussed more fully in the reporting segment discussion that follows.

Selling, General & Administrative Expenses (S,G&A)

In thousands	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Selling, general and administrative expenses (S,G&A)	\$ 64,726	\$ 59,450	\$ 191,198	\$ 177,426
\$ change	5,276	3,460	13,772	9,965
% change	8.9%	6.2%	7.8%	6.0%
% of net sales	19.3%	21.6%	20.4%	21.8%

Overall S,G&A expenses as a percent of net sales decreased during the third quarter and the first nine months of 2008. Expense at both the Industrial Distribution and Aerostructures segments increased, largely as a result of the two acquisitions in the second quarter of 2008. Other increases in S,G&A related to higher personnel costs and vehicle expenses driven by higher fuel costs. These increases were partially offset by a decrease in Corporate expense, which was attributable to lower group insurance expenses and other incentive compensation including the long-term incentive program and stock compensation expense.

S,G&A for the first nine months of 2008 increased also due to the two acquisitions made during the second quarter of 2008. Other increases related to higher personnel costs across most of the reporting segments as well as increased bid and proposal activity in the aerospace segments. Overall, Corporate expenses decreased significantly primarily due to lower fringe benefits, incentive compensation and stock appreciation rights expense as well as lower group insurance expenses for the first nine months of 2008.

Goodwill Impairment

During the second quarter of 2008, our Aerostructures Wichita, KS facility continued to experience production and quality issues, which, along with circumstances unique to each contract, resulted in the separate termination of two long-term contracts with Spirit AeroSystems and Shenyang Aircraft Corporation. These contracts, which were significant to the facility, were both loss contracts. In accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"), we test goodwill for potential impairment annually as of December 31 and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Due to the loss of the two major contracts as well as the continuing production and quality issues, management performed a goodwill impairment analysis for this reporting unit as of June 27, 2008.

We evaluated goodwill for impairment using the two-step process prescribed in SFAS 142. The first step is to identify potential impairment by comparing the fair value of a reporting unit to its book value, including goodwill. If the fair value of a reporting unit exceeds its book value, goodwill is not considered impaired. If its book value exceeds its fair value, the second step of the process is performed to measure the amount of impairment. The process of evaluating goodwill for impairment involves the determination of the fair value of the reporting unit and is based on several valuation methods including the market approach and income approach. Inherent in such fair value determinations are certain judgments and estimates relating to future cash flows, including our interpretation of current economic indicators and market valuations, and assumptions about our strategic plans with regard to the operations of our reporting units.

Although we believe that we are working through the production issues at our Aerostructures Wichita facility, its carrying value had increased significantly during the second quarter of 2008. This, combined with our loss of two long-term contracts and the quality and production issues at the facility, created a situation in which the estimated fair value of this reporting unit (the legal entity Plastic Fabricating Company, Inc.) was less than its carrying value. The resulting total non-cash goodwill impairment charge was \$7,810, which represented the entire goodwill balance for this reporting unit prior to the charge. This charge is not deductible for tax purposes and represents a discrete item in our second quarter 2008 effective tax rate.

Operating Income

In thousands	For the Three Months Ended		For the Nine Months Ended

Our reporting segments produced mixed operating income results for the third quarter and first nine months of 2008 compared to the same periods in 2007. The Specialty Bearings, Helicopters and Industrial Distribution segments experienced an increase in operating income in 2008 compared to 2007 primarily as a result of the program developments and national accounts discussed in the segment sections that follow. Corporate expenses were also significantly lower in both the third quarter and first nine months of 2008 compared to the third quarter and first nine months of 2007. These positive impacts were offset by decreases in our Aerostructures and Precision Products segments. Please refer to the individual segment discussions for details.

Loss on Ineffective Derivative Instrument

In connection with the acquisition of Brookhouse, the company assumed two foreign currency hedge contracts originally intended to hedge forecasted cash flows on a significant US dollar denominated contract. During the third quarter of 2008, the company determined that these hedges were ineffective, and that they no longer met the criteria for accounting under SFAS No. 133 "Accounting for Derivative Instruments and Hedging Activities", due to a significant shift in the timing of the forecasted cash flows. Therefore, the company cancelled the contracts near the end of September, which resulted in a loss of \$1.6 million that has been included in non-operating income in our consolidated statements of operations.

Additional Consolidated Results

Net interest expense generally consists of interest charged on the revolving credit facility offset by interest income. Total net interest expense for the third quarter of 2008 was \$1.1 million compared to \$1.7 million for the third quarter of 2007. Total net interest expense for the first nine months of 2008 was \$1.5 million as compared to \$4.9 million expense in the first nine months of 2007. The difference for both periods was a result of our pay down of a significant portion of our revolving credit line as of December 31, 2007, using the proceeds from the sale of the Music segment, as well as the redemption of the remaining convertible debentures in late 2007. In the second quarter of 2008, the company began to borrow against its revolving credit line again to fund working capital requirements, and a significant amount of debt was incurred in June to fund the Brookhouse acquisition.

The effective income tax rate was 36.0% for the third quarter of 2008 as compared to 38.2% for the third quarter of 2007. The effective rate for the entire year is estimated to be 40% for 2008, which includes certain discrete quarterly items including the second quarter non-deductible goodwill impairment charge, compared to 36.6% for 2007. The effective tax rate represents the combined estimated federal, state and international tax effects attributable to pretax earnings for the year.

Other Matters

In connection with our sale of the Music segment, we assumed responsibility for meeting certain requirements of the Connecticut Transfer Act (the "Transfer Act") that apply to the leased guitar manufacturing facility ("Ovation") located in New Hartford, Connecticut, which was transferred as part of the sale. Under the Transfer Act, we are required to assess the environmental conditions of the site and remediate environmental impairments, if any, caused by Ovation's operations. The site consists of a multi-tenant industrial park, in which Ovation and other unrelated entities lease space. We continue the process of assessing the environmental conditions at the site and determining our share of the cost of environmental remediation that may be required. Our current estimate of our portion of the cost to assess the environmental conditions and remediate this property is \$2.2 million, unchanged from previously reported estimates.

The CTDEP has given the company conditional approval for reclassification of groundwater in the vicinity of the Moosup, CT facility consistent with the character of the area. This facility is currently being held for disposal. The company has substantially completed the process of connecting neighboring properties to public drinking water in accordance with such approval and in coordination with the CTDEP and local authorities. The company anticipates that the water connection project will be completed in the late 2008/early 2009 timeframe. A site assessment to characterize the environmental condition of the property has also commenced.

COMBINED AEROSPACE SEGMENT RESULTS

The following table presents selected financial data for our combined Aerospace Segments:

	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007

Kaman's strategies for the Aerospace segments are:

- Aerostructures: Take advantage of the trend toward increased outsourcing by both the aircraft prime manufacturers and Tier 1 suppliers.
- Precision Products: Become the leading producer of fuzing systems for the U.S. military and allied militaries.
- Helicopters: Take advantage of increasing subcontracting opportunities as helicopter prime manufacturers shift focus from manufacturing to final assembly and systems integration.
- Specialty Bearings: Maintain leadership in product technical performance and application engineering support while staying ahead of the curve in product technology enhancement, lean manufacturing techniques and lead time reduction.

The growth in net sales for both the third quarter and first nine months of 2008 was partially attributable to \$15.2 million and \$18.8 million of sales by Brookhouse, respectively, which was acquired in mid-June 2008. The remainder of the sales growth was due to higher production levels and increased shipments to Sikorsky for the BLACK HAWK helicopter program at our Jacksonville facility, offset partially by a decrease in Wichita facility sales due to the production and operational issues discussed below. During the third quarter of 2008, the segment delivered 31 BLACK HAWK cockpits as compared to the 23 delivered in the third quarter of 2007. For the third quarter and first nine months of 2008, the segment's gross profit was significantly impacted by charges recorded at the Wichita facility. For the third quarter of 2008, these charges were \$3.9 million and were \$17.9 million for the first nine months of 2008, which included a goodwill impairment charge of \$7.8 million.

Aerostructures – Major Programs

In the third quarter of 2008, our Jacksonville facility continued to deliver cockpits under the Sikorsky BLACK HAWK helicopter program. In June 2008, Sikorsky placed an order for an additional 238 cockpits. To date, Sikorsky has placed orders for 549 cockpits for various models of the helicopter. This program includes the installation of all wiring harnesses, hydraulic assemblies, control pedals and sticks, seat tracks, pneumatic lines, and the composite structure that holds the windscreen for cockpits on most models of the BLACK HAWK helicopter. This program has a total potential value of at least \$250 million. We expect that deliveries on the current orders will continue through 2010. A total of 248 cockpits have been delivered under this contract from inception through the third quarter of 2008.

In mid July 2008, the company signed a long-term requirements contract with Boeing for the production of wing control surfaces for the U.S. Air Force's A-10 fleet. The agreement calls for the segment to supply inboard and outboard flaps, slats and deceleron assemblies, which will be performed at the Aerostructures Jacksonville facility. The contract commenced in 2008 with initial deliveries scheduled to begin in early 2010. Full rate production is expected to begin in 2011 with an average of approximately 47 shipsets per year through 2015. This multiyear contract has a potential value in excess of \$100 million. The annual quantities may vary and will be dependent upon the orders Boeing receives from the Air Force.

The production of structural wing subassemblies for the Boeing C-17 continues to be an important element in maintaining a sufficient business base at the Jacksonville facility and will remain so until work under the A-10 program ramps up in 2010. During the third quarter of 2008, we received an order for an additional 10 shipsets, which will extend production under this program through 2010. Additionally, in late 2007 we signed a seven-year follow-on contract with Boeing for the production of fixed wing trailing edge assemblies for the Boeing 777 and 767 aircraft. Shipments under this program had been delayed during the third quarter, due to the International Association of Machinists (IAM) strike at the Boeing Company. Now that Boeing appears to have reached a tentative deal with the striking machinists, we are hopeful that we will be able to resume shipments to Boeing shortly, although shipments may still be behind schedule for the fourth quarter of 2008.

At the Aerostructures Wichita facility, we continue our efforts to implement corrective actions to resolve personnel, quality and production process issues. As previously reported, these issues arose in connection with the facility's rapid expansion to accommodate the ramp up of three contracts, all of which were awarded in 2006; specifically, Spirit AeroSystems and Shenyang Aircraft Corporation for the Boeing 787 Dreamliner program and Sikorsky Aircraft Corporation for the Canadian MH-92 helicopter program. In the first quarter, management responsibility for the facility was consolidated with the Jacksonville management team in order to share operational knowledge. During the second quarter we successfully hired key personnel, including the appointment of Greg Steiner as President of our Aerospace Group. We also made efforts toward resolving production and equipment issues. In July 2008, the "probation" status that was imposed by a major customer in the first quarter was removed, and production has resumed on all programs. During the third quarter, we were also able to successfully complete the required audits and re-established our AS9100 certification in late September 2008.

As previously reported, the facility's lack of certification status for a large portion of the year has adversely affected our ability to fully perform our obligations under certain contracts. These circumstances, combined with the personnel and operational issues described above and other factors affecting specific programs, resulted in two of the contracts awarded in 2006 being terminated. Specifically, we received a notice from Spirit AeroSystems in June 2008 seeking a default termination of its contract. Management has cooperated with Spirit to achieve the customer's production objectives while reserving our legal rights with respect to the appropriateness of the contract termination. In addition, in July 2008 the Shenyang contract was terminated under a mutually satisfactory arrangement that essentially waives all potential claims other than warranty items. This arrangement also provides compensation to the Wichita facility for its tooling, which was transferred directly to Boeing. Although both of these terminated programs were loss contracts for the company, they were considered significant to the overall operating results of the Wichita facility. Finally, inventories at the facility have increased significantly due to delays in shipments as a result of these circumstances. These issues, which existed during most of the quarter, have led to continued inefficiencies, excess costs to perform additional quality procedures, an insufficient business base to maintain our overhead structures and higher obsolete inventory. These issues led to the segment recording an additional \$3.9 million charge during the third quarter of 2008.

Even with these issues, the Wichita facility is making progress on other programs, including the tail rotor pylon work for Sikorsky's Canadian MH-92 helicopter program with support from the Jacksonville facility. Due to numerous design changes directed by the customer, costs on this program have grown substantially, and have reached the point where they exceed the proposed price for the not yet finalized contract. Management believes these incremental costs are recoverable from the customer, and that the upcoming contract negotiation discussions will yield an acceptable overall price. We believe that the Wichita facility is an important component of our overall strategy. The facility, which is in a key location, provides skilled capability in composites, an industry that is becoming increasingly prevalent. In addition, this facility has a structure that should allow us to become increasingly competitive as we work through our operational issues. We have invested significant time, resources and capital into this facility and, although there is still significant work to be done, we believe the right management team is in place to meet the challenges currently confronted by the Wichita facility. However, it is expected that it will take the remainder of 2008 to resolve these operational issues satisfactorily.

Our recently acquired UK-based facility, which designs and manufactures composite aerostructures, aerospace tooling, and performs repair and overhaul services, performed well during the third quarter of 2008. This facility has components placed on a number of platforms on which we previously did not have work, including the Airbus A320 family, Airbus A330/340, F-35 (Joint Strike Fighter) and Eurofighter. As previously disclosed, this acquisition supports our overall aerospace strategy and it expands our presence on a number of additional platforms with solid growth prospects. The tooling business also adds significant capability to our portfolio and further diversifies our customer base, while the after-market services business will increase our capabilities in the repair and overhaul business.

Net sales for the third quarter of 2008 increased compared to the third quarter of 2007 primarily as a result of greater JPF Fuze program shipments to the U.S. Government (USG). Net sales for the first nine months of 2008 compared to the same period a year ago increased primarily due to increased production and shipments of the JPF to the USG as well as higher shipments on several legacy fuze programs. The increase in operating income for the third quarter of 2008 compared to the third quarter of 2007 was driven by increased profitability on our legacy fuze programs. Sales to the USG on the JPF program under the current option are at an essentially break even gross margin, which resulted in a decrease in operating income for the first nine months of 2008 compared to the same period in 2007. The 2007 results also benefited from higher gross margins on the JPF facilitization program, which was essentially complete in early 2008; sales of 40mm products, a product line that was sold on December 31, 2007; and several higher margin foreign military sales of the JPF product.

Precision Products – Major Programs

The JPF program continues to be one of the segment's most important programs with significant potential for growth. The segment has been able to steadily ramp up production over the first nine months of 2008. The total value of JPF contracts awarded by the USG from inception of the program through September 26, 2008 is \$190.3 million. This value primarily consists of Options 1 through 5 under the original contract and various contract modifications, including a two-phase facilitization contract modification and additional foreign military sales facilitated by the USG, as well as a variety of development and engineering contracts, along with special tooling and test equipment. We expect that we will continue production under the currently awarded options through 2009 and are currently working with the USG for follow-on orders.

In the second and third quarters, we achieved our desired production levels of more than 6,000 fuzes per quarter and were able to ship fuzes to the USG in the lot sizes required. This production capability, achieved on a consistent basis, will allow us in the future to meet our delivery requirements to the USG as well as sell fuzes to foreign customers. Therefore, our efforts to produce and sell the JPF to foreign allied militaries, which would generate further market penetration, increase sales and improve profitability, are important factors to the ultimate success of this program. These shipments to foreign allied militaries are under both the USG contract as well as direct commercial sales. Typically we cannot sell any fuzes to our foreign customers until after we have met our USG requirements. To date, we have sold smaller lots of fuzes to several foreign allied militaries. The segment also has a significant amount of JPF fuze inventory, the specifications of which are outside the U.S. government's temperature requirement. Since these fuzes meet the operational requirements of non-U.S. militaries, we are actively marketing these fuzes to them and have received an order for some of these fuzes, which are expected to be shipped in late 2008. We also continue to work with the USG to negotiate further price increases, which will lead to improved profitability on this program. We believe that this program has made meaningful progress and we continue to work to ensure the overall success of the program.

Due to the design complexity of the fuze, we have in the past experienced difficulty with production of the fuze. During 2008, we have continued to make progress on production improvements and enhancements of the JPF fuze system. The facilitization program has also contributed to our increased production and has been another important element of our strategy to improve our quality and efficiency on the JPF program. This facilitization program provides us an opportunity to review production workflow to create greater efficiencies, qualify a second Kaman site (Middletown) for full production of JPF fuzes, and create an enhanced fuze design. The enhanced design is expected to reduce the number of technical issues so that a more steady state of production can be achieved more efficiently. We believe that the value of these initiatives will be more fully realized in 2009 and beyond. Although we believe that we are making progress on this program, at this time the line remains subject to periodic production interruptions, which may result in irregular shipments and increased costs.

Warranty and Contract-Related Matters

There continue to be two warranty-related matters that impact the FMU-143 program at our Precision Products Orlando operation. The items involved are an impact switch embedded in certain bomb fuzes that was recalled by a supplier and an incorrect part, called a bellows motor, found to be contained in bomb fuzes manufactured for the U.S. Army utilizing systems which originated before the Orlando operation was acquired by Kaman. The U.S. Army Sustainment Command (USASC), the procurement agency that administers the FMU-143 contract, had authorized warranty rework for the bellows motor matter in late 2004/early 2005; however, we were not permitted to finish the rework due to issues raised by the USASC primarily related to administrative matters and requests for verification of the accuracy of test equipment (which accuracy was subsequently verified).

In late 2006, the USASC informed us that it was changing its remedy under the contract from performance of warranty rework to an "equitable adjustment" of \$6.9 million to the contract price. We responded, explaining our view that we had complied with contract requirements. In June 2007 the USASC affirmed its position but rescinded its \$6.9 million demand (stating that its full costs had not yet been determined) and gave instructions for disposition of the subject fuzes, including both the impact switch and bellows motor related items, to a Navy facility and we complied with that direction. To date, USASC has not made a demand for any specific amount.

As reported previously, a separate contract dispute between our Precision Products Orlando operation and the USASC relative to the FMU-143 fuze program is now in litigation. USASC has basically alleged the existence of latent defects in certain fuzes due to unauthorized rework during production and has sought to revoke their acceptance. Management believes that the Precision Products segment has performed in accordance with the contract and it is the government that has materially breached its terms; as a result, during the fourth quarter of 2007, we cancelled the contract and in January 2008, we commenced litigation before the Armed Services Board of Contract Appeals (the "Board") requesting a declaratory judgment that our cancellation was proper. At about the same time, the USASC notified us that it was terminating the contract for default, making the allegations noted above. We have filed a second complaint with the Board appealing the USASC's termination decision. The litigation process is ongoing.

Sales for the Helicopters segment were comprised primarily of the upgrade and maintenance program for Egypt, Sikorsky subcontract work, MDHI subcontract work and SH-2 program spare parts. The decrease in sales for the third quarter and first nine months of 2008 compared to the same periods in 2007 was a result of certain nonrecurring work performed for Egypt in 2007 that was not repeated during 2008 as well as lower SH-2 program spare parts sales and lower revenue on the Australian production and service contracts. These decreases were partially offset by increased sales for Sikorsky and MDHI. Operating income increased primarily due to the absence of an accrued contract loss charge for the Australia program in the first nine months of 2008 as well as higher gross margins on subcontract sales. Third quarter and first nine months of 2007 Australian program charges were \$0.8 million and \$5.6 million, respectively.

Helicopters – Major Programs

As previously reported, in March 2008, the company and the Commonwealth of Australia signed a settlement agreement which terminates the SH-2G(A) Super Seasprite program on mutually agreed terms. The agreement provides that ownership of the 11 SH-2G(A) Super Seasprite helicopters (along with spare parts and associated equipment) will be transferred to the company and, thereafter, proceeds from each helicopter sale will be shared on a predetermined basis. U.S. Government (USG) approval is required for both physical transfer and ownership transfer of the aircraft and equipment. The USG's approval for physical transfer was obtained during the second quarter and the parties are now coordinating efforts to achieve shipment of the aircraft and equipment to the U.S., after which USG approval of the Commonwealth's transfer of ownership will be requested. Management is hopeful that such approval and the actual transfer of ownership will occur on or before December 31, 2008. During the third quarter, Helicopters segment management obtained additional USG-required marketing licenses and is beginning discussions with many potential foreign government customers. Segment management has also attended trade events such as the Black Sea Air Show recently held in Romania.

In connection with sharing sale proceeds, we have agreed that total payments of at least \$39.5 million (AUS) will be made to the Commonwealth regardless of sales, with at least \$26.7 million (AUS) to be paid by March 2011, and, to the extent cumulative payments have not yet reached \$39.5 million (AUS), additional payments of \$6.4 million (AUS) each in March of 2012 and 2013. To secure these payments, at the date of ownership transfer as described above, the company will provide the Commonwealth with a \$39.5 million (AUS) unconditional letter of credit which will be reduced as such payments are made. Additionally, under the agreement, we will forego payment of approximately \$33 million in net unbilled receivables in exchange for the helicopters, spare parts and equipment, which will be recorded as inventory. We currently expect that the value of this transferred inventory will exceed the amount of the net unbilled receivables and the guaranteed payments described above. The transaction will be recorded as of the date of ownership transfer and we do not currently expect that it will have a material impact on the statement of operations. The termination of the contract, combined with the return of inventory, will result in our inability to claim look-back interest from the IRS, previously expected to exceed \$6 million pretax. Additionally, sales relative to the service center, which have been a meaningful portion of Helicopters segment net sales in recent years, effectively will end at the conclusion of the support center ramp down period, which will occur during the fourth quarter of 2008.

We continue our work under a program for depot level maintenance and upgrades for nine SH-2G(E) helicopters delivered to the Egyptian government during the 1990s. Through September 26, 2008, we are on contract for approximately \$49.9 million of work related to maintenance and upgrades. This program has a potential total contract value of approximately \$92 million. The segment also continues to perform subcontract work for Sikorsky involving BLACKHAWK fuselage joining and installation tasks and the production of certain mechanical subassemblies and for MDHI in regard to Rotor Blade System deliveries. These programs have been an important element of our business base over the recent past.

Additionally, during 2008, we continued to work under a contract from the Army Material Research Development and Engineering Command for follow-on work associated with development of the BURRO Unmanned Resupply Helicopter, utilizing the K-MAX helicopter. In January 2008, the segment and Lockheed, under our previously disclosed agreement, jointly acquired three K-MAX helicopters from a U.S. Government General Services Administration auction for an average cost of \$4.3 million. Two of the aircraft were purchased by Lockheed and the third is owned by the company. The aircraft are being used to further develop the BURRO program.

In August 2008, the company completed its purchase of the portion of the Bloomfield campus that Kaman Aerospace Corporation (of which the Helicopters segment forms a part) had leased from NAVAIR for many years. In connection with the purchase, we have assumed responsibility for environmental remediation at the facility as may be required under the Transfer Act and we continue the effort to define the scope of the remediation that will be required by the Connecticut Department of Environmental Protection (CTDEP). Management believes that the fair value of the property of \$10.3 million approximates the discounted present value of the cost of the environmental remediation. This remediation process will take many years to complete.

The Specialty Bearings segment continued its trends of strong sales and operating income in the third quarter and first nine months of 2008. The increase in net sales for both the quarter and the first nine months was a result of higher shipments to our customers in the commercial jet liner market (including the aftermarket), regional jet market and helicopter market. Sales for the first nine months of 2008 also reflect a favorable foreign currency rate change, of approximately 2.6 percent, due to the exchange rate of the Euro in 2008 as compared to 2007. Operating income increased primarily due to the increased sales volume driven by increased shipments and favorable pricing, which allows us to leverage our fixed costs, and continued lean manufacturing improvements on the production line.

Specialty Bearings – Major Programs

The aerospace market continues to be strong in 2008 although Airbus and Boeing have reported a slowdown in new order activity and U.S. airlines have announced capacity and fleet reductions. The segment has maintained a strong backlog although we do perform a significant amount of work for Boeing through direct contracts and subcontract work, including aftermarket support. Sales for the rest of 2008 will be slightly lower than the previous fourth quarter, although we currently do not believe that our total operating results will be significantly impacted by the IAM strike. Our diverse customer mix, which includes several large commercial aircraft customers and a significant aftermarket, as well as military customers and the regional jet liners market, provides us some degree of stability in the changing economy. Additionally, we typically experience stronger sales in the first half of the year as compared to the second half primarily due to the greater number of holidays and the peak summer months being in the second half of the year.

We also benefit significantly from our strategy to provide a high quality product with shorter lead times than our competitors, to customers in both the commercial and military markets. We continue to target the most demanding applications early in the aircraft design process as part of prime contractors' problem solving teams. We then apply innovative technology to develop and manufacture proprietary products to address our customers' needs while providing excellent performance and service. We believe technological enhancements we make to our current products, as well as the development of new products, will preserve our competitive advantages, increase our customer base, and lead to further penetration of both domestic and foreign markets. Our Bloomfield operation received the UTC Supplier Gold award in a presentation ceremony October 28, 2008. UTC Supplier Gold is a supplier recognition program established to acknowledge superior performance over the preceding 12 months. Supplier Gold criteria address quality, delivery, lean and customer satisfaction.

INDUSTRIAL DISTRIBUTION SEGMENT RESULTS

The following table presents selected financial data for the Industrial Distribution segment:

In thousands	For the Three Months Ended		For the Nine Months Ended	
	September 26, 2008	September 28, 2007	September 26, 2008	September 28, 2007
Net sales	\$ 204,275	\$ 178,090	\$ 589,773	\$ 526,106
\$ change	26,185	11,344	63,667	18,307
% change	14.7%	6.8%	12.1%	3.6%
Operating income	\$ 10,704	\$ 9,045	\$ 29,512	\$ 26,043
\$ change	1,659	455	3,469	(2,620)
% change	18.3%	5.3%	13.3%	(9.1)%
% of net sales	5.2%	5.1%	5.0%	5.0%

Our Industrial Distribution segment continued its trend of strong sales growth during the third quarter of 2008. Approximately half (\$13.5 million) of this increase was attributable to sales by ISC, which was acquired on March 31, 2008. The remaining half was due to higher sales to new national accounts, some of which were ramping up during the first nine months of 2007. The first nine months of 2008 also experienced strong sales growth despite the slowing industrial market and uncertain economy. During the year, we continued to make investments in infrastructure in the form of new branches and opened a new branch in Savannah, GA during the third quarter. As previously disclosed, these investments in infrastructure and personnel have had an impact on our operating income and it will take several years for the benefits of these investments to be fully realized. Operating income for the third quarter and first nine months of 2008 increased primarily due to the sales volume increase. We anticipate that as we continue to ramp up our new branches, leveraging our size and scale, and increase sales to recently awarded national accounts, margins will improve. However, we remain watchful of the impact of the current economic conditions and the credit markets.

2008 Industrial Distribution Trends

The Market

Because of our diverse customer base, our performance tends to track the U.S. Industrial Production Index. We are therefore affected, to a large extent, by the overall business climate for our customer industries, which includes plant capacity utilization levels, and the effect of pricing spikes and/or supply interruptions for basic commodities such as steel and oil. The strength of certain markets varied considerably by industry type during the first nine months of 2008, and markets and products such as mining, paper manufacturing, food and beverage processing and fluid power, continued to perform well. Other industries have experienced a decline, including the building materials industry (with respect to new home construction). Our business has been adversely impacted in certain of these areas but continues to improve in other industries, largely due to the several new contracts and renewals we have received in 2008.

Our Strategy

The strategy for the Industrial Distribution segment is to:

1. Expand our geographic footprint in major industrial markets to enhance our position in the competition for regional and national accounts.

In order to increase our geographic footprint, we continue to explore potential acquisition candidates as well as establish branches in locations that are consistent with our strategic objectives. By so doing, we will more clearly establish our business as one that can provide comprehensive services to our customers who are continually focused on streamlining their procurement operations and consolidating supplier relationships. In early October 2008, the segment acquired the stock of INRUMEC of Puerto Rico. INRUMEC, founded in 1963, is a distributor of fluid power products; industrial and hydraulic hoses; belting and conveyer systems; pipe, tube, fittings and valves; and packaging machinery to such diverse markets as food, beverage, pharmaceutical, cement and aggregate. INRUMEC is also a manufacturer of hydraulic hose assemblies for the same end markets and has a branch and regional distribution facility in Gurabo as well as branches located in Bayamón, Ponce and Mayaguez. The company has annual sales of approximately \$13 million. This acquisition will allow us to immediately provide service to our new national account that has a presence in Puerto Rico. As noted above, the segment also opened a small branch in Savannah, GA.

2. Broaden our product offering to gain additional business from existing customers and new opportunities from a wider slice of the market.

In recent years, we have worked to increase market share in several growing markets including the mining, energy and food and beverage industries. We believe that we have been successful in this endeavor, as evidenced by our recently awarded national account wins, and continue to focus on these industries. During the third quarter, we received notification of renewals from several large national accounts including US Gypsum, Del Monte Foods, Titan Cement, Chemical Lime, Solo Cup and Campbell's Soup Company. We also continued to build our government business group to service our recently awarded 5-year contract with the General Services Administration Center for Facilities Maintenance and Hardware which allows us to supply government agencies with MRO products from our major product categories.

We also continue to be focused on maintaining competitive pricing as well as providing value added services that save our customers money and time while helping them improve operating efficiency.

3. Further enhance operating and asset utilization efficiencies throughout the enterprise.

To compete effectively in today's industrial market requires size, scale, effective IT systems and knowledgeable people. Our size and scale allow us to realize internal operating efficiencies and achieve supplier incentives in the form of rebates. To further meet our customers' requirements our new e-business search engine provides customers with a more intuitive and flexible search capability to satisfy their evolving needs. We expect that this tool will allow us greater asset utilization and increase our operating efficiencies. To ensure the continuation of our ability to help customers solve their production reliability challenges, we rely on a disciplined human resource recruiting process supported by proprietary and industry based education programs. This allows us to have the appropriate number of qualified personnel to help us continue to compete in the markets in which we participate.

IV. CRITICAL ACCOUNTING ESTIMATES

Preparation of the company's financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Management believes the most complex and sensitive judgments, because of their significance to the consolidated financial statements, result primarily from the need to make estimates about the effects of matters that are inherently uncertain. Management's Discussion and Analysis and the Notes to the Consolidated Financial Statements in the company's Form 10-K for the year ended December 31, 2007, describe the significant accounting estimates and policies used in preparation of the Consolidated Financial Statements. Actual results in these areas could differ from management's estimates. There have been no significant changes in the company's critical accounting policies and significant estimates in 2008.

V. LIQUIDITY AND CAPITAL RESOURCES

We assess the company's liquidity in terms of our ability to generate cash to fund working capital, investing and financing activities. Significant factors affecting liquidity include: cash flows generated from or used by operating activities, capital expenditures, investments in our business segments and their programs, acquisitions, divestitures, dividends and adequacy of available bank lines of credit.

We continue to rely upon bank financing as an important source of support for our business activities including several recent acquisitions. We believe this, when combined with cash generated from operating activities, will be sufficient to support our anticipated liquidity requirements for the foreseeable future. We anticipate that a variety of items will have an impact on our liquidity during the next 12 months, aside from our normal working capital requirements. These may include the resolution of any of the matters described in Management's Discussion and Analysis, including the FMU-143 contract matter, the letter of credit to guarantee the payment to the Commonwealth, the cost of environmental remediation associated with the purchase of the NAVAIR property, the operational issues at the Aerostructures Wichita facility, and future SERP payments and required pension contributions. However, we do not believe any of these matters will lead to a shortage of capital resources or liquidity that would prevent us from continuing with our business operations as expected.

We are watchful of the recent developments in the credit markets and are assessing the impact that the current economic downturn may have on the company. This current market may prohibit us from securing the level of financing that is necessary to continue with our growth strategy and finance working capital requirements. The trends in the market may have an impact on the company through lower customer spending as well as higher interest rates on borrowings going forward. Additionally, with the significant downturn in the current financial markets, our pension plan assets have significantly decreased which may result in higher pension plan contributions in 2009. These matters and others are discussed in more detail in the Risk Factors section of this Form 10-Q.

The following table summarizes cash flow activity from continuing operations:

In thousands	September 26, 2008	September 28, 2007
Total cash provided by (used in)		
Operating activities	\$ (38,479)	\$ (6,039)
Investing activities	(111,871)	(14,008)
Financing activities	91,719	16,698
Increase (decrease) in cash	\$ (58,631)	\$ (3,349)

Net cash used in operating activities increased \$32.4 million for the first nine months of 2008 compared to the first nine months of 2007. This increase is primarily attributable to increased cash requirements to fund working capital needs in the first nine months of 2008 as compared to the first nine months of 2007 as specifically discussed below:

- The company experienced an increase in accounts receivable partially as a result of higher sales volume at our Industrial Distribution, Aerostructures, Precision Products and Specialty Bearings segments.
- Inventory levels increased in the Helicopters segment, primarily due to the acquisition of a K-MAX aircraft, and in the Aerostructures segment, primarily due to higher amounts of inventory at the Wichita facility.
- Inventory has also increased at our Precision Products segment, although it is anticipated that the JPF inventory, the largest driver of this increase, will decrease as additional progress payments are billed and as more fuzes are shipped.
- Total cash payments for income taxes increased significantly, primarily due to the taxes paid on the gain of the Music segment sale.
- The company paid out a significant amount of SERP payments in the first nine months of 2008 compared to the first nine months of 2007 primarily attributable to the retirement of the former CEO.

Net cash used in investing activities increased \$97.9 million for the first nine months of 2008 compared to the same period of 2007. The majority of the increase was attributable to the acquisitions of Brookhouse and ISC during the second quarter of 2008. Capital expenditures also increased specifically at the Specialty Bearings, Aerostructures and Industrial Distribution segments.

Net cash provided by financing activities increased \$75.0 million for the first nine months of 2008 compared to the same period of 2007. The company had net borrowings under the Revolving Credit Agreement of \$88.3 million for the first nine months of 2008 as compared to \$29.3 million for the first nine months of 2007. The significant increase was driven by our acquisition activity in the second quarter of 2008. Cash outflows for financing activities during 2008 also included the payment of dividends, net of proceeds from the exercise of employee stock options.

Financing Arrangements

We maintain a \$200 million revolving credit facility (Revolving Credit Agreement) expiring August 4, 2010. The facility includes the availability of funding in foreign currencies as well as an “accordion” feature that provides the company the opportunity to request, subject to bank approval, an expansion of up to \$50 million in the overall size of the facility. A significant amount of this facility was used to fund the acquisition of Brookhouse in the second quarter of 2008. On October 29, 2008, the Company and The Bank of Nova Scotia, Bank of America, N.A., Fifth Third Bank, and RBS Citizens, N.A. (collectively the “Banks”) executed a Term Loan Credit Agreement. The Term Loan Agreement, which is in addition to our current Revolving Credit Agreement, is a \$50 million facility with a four-year term, including quarterly payments of principal at the rate of 2.5% with 62.5% of the initial aggregate principal payable in the final quarter. The company may increase the term loan, up to an aggregate of \$50 million, with additional commitments from Banks or new commitments from acceptable financial institutions. Additionally, the covenants required of the Company are the same as those in place under the Revolving Credit Agreement. In conjunction with this agreement, the current Revolving Credit Agreement was amended to acknowledge the existence of the Term Loan Credit Agreement and adopts certain provisions of the Term Loan Credit Agreement provisions.

Total average bank borrowings for the first nine months of 2008 were \$48.3 million compared to \$81.2 million for the same period in 2007. As of September 26, 2008, there was \$72.9 million available for borrowing under the Revolving Credit Agreement, net of letters of credit. Letters of credit are generally considered borrowings for purposes of the Revolving Credit Agreement. A total of \$27.7 million in letters of credit were outstanding under the Revolving Credit Agreement at September 26, 2008, \$20.4 million of which is related to the Australia SH-2G(A) program. Once the U.S. Government has approved the transfer of the inventory according to the terms of the settlement agreement, we will cancel these letters of credit and issue a new letter of credit for the guaranteed minimum payment previously described.

Facility fees and interest rates under the Revolving Credit Agreement are determined on the basis of the company's credit rating from Standard & Poor's. In June 2008, Standard & Poor's re-affirmed the company's rating as investment grade BBB- with an outlook of stable. We believe this is a favorable rating for a company of our size. Under the terms of the Revolving Credit Agreement, if this rating should decrease, the effect would be to increase facility fees as well as the interest rates charged. The financial covenants related to the Revolving Credit Agreement include a requirement that the company have i) EBITDA, at least equal to 300 percent of net interest expense, on the basis of a rolling four quarters and ii) a ratio of consolidated total indebtedness to total capitalization of not more than 55 percent. The agreement also incorporates a financial covenant which provides that if the company's EBITDA to net interest expense ratio is less than 6 to 1, the ratio of i) accounts receivable and inventory for certain Kaman subsidiaries to ii) the company's consolidated total indebtedness cannot be less than 1.6 to 1. We remained in compliance with those financial covenants as of and for the quarter ended September 26, 2008.

Other Sources/Uses of Capital

We will make a cash contribution of approximately \$7.0 million to our tax-qualified defined benefit pension plan for the 2008 plan year, of which \$3.5 million was made through the third quarter of 2008. Additionally during 2008, we will pay approximately \$14.0 million in SERP payments, a large portion of which were made in February and August 2008 to our former CEO for his final lump sum SERP payment. Total SERP payments through the third quarter of 2008 were \$13.1 million. For the 2007 plan year, we made a contribution of \$10.0 million to our tax-qualified defined benefit pension plan and \$2.4 million in payments for our SERP.

In November 2000, the company's board of directors approved a replenishment of the company's stock repurchase program, providing for repurchase of an aggregate of 1.4 million common shares for use in administration of the company's stock plans and for general corporate purposes. There were no shares repurchased during the first nine months of 2008.

VI. CONTRACTUAL OBLIGATIONS AND OFF-BALANCE SHEET ARRANGEMENTS

Contractual Obligations

There has been no material change outside the ordinary course of business in the company's contractual obligations during the third quarter of 2008. Please see the company's Form 10-K for the year ended December 31, 2007 for a discussion of its contractual obligations.

Off-Balance Sheet Arrangements

There has been no material change in the company's off-balance sheet arrangements during the third quarter of 2008. Please see the company's Form 10-K for the year ended December 31, 2007 for a discussion of such arrangements.

VII. RECENT ACCOUNTING STANDARDS

A summary of recent accounting standards is included in Note 1, Basis of Presentation, of the Notes to Condensed Consolidated Financial Statements, which is included in Item 1, Financial Statements, of this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no significant change in the company's exposure to market risk during the third quarter of 2008. Please see the company's Form 10-K for the year ended December 31, 2007 for a discussion of the company's exposure to market risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The company has carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of September 26, 2008. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of September 26, 2008, the disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports that we file and submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

During 2008, the company acquired Industrial Supply Corporation and Brookhouse Holdings Limited. While the company is beginning the process of incorporating its controls and procedures into these businesses, management has not yet performed documentation, evaluation and testing of internal controls over financial reporting at those subsidiaries. Industrial Supply Corporation and Brookhouse Holdings Limited will not be included in the company's assessment of internal controls over financial reporting as of December 31, 2008.

Changes in Internal Controls

There were no other changes in internal controls over financial reporting at the company that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Kaman Corporation and Subsidiaries
Part II – Other Information

Item 1A. Risk Factors

Our business, financial condition, operating results and cash flows can be impacted by a number of factors, including, but not limited to, those set forth below, any one of which could cause our actual results to vary materially from recent results or anticipated future results. Information regarding risk factors appears in Part I – Item 1A of our Report on Form 10-K for the fiscal year ended December 31, 2007. We have added a discussion of the current economic downturn and the impact it may have on us as well as the potential impact of the Boeing Company IAM strike. Other risk factors that were added during 2008 include a discussion of our risk related to goodwill impairment as well as our updated discussion relative to the Deed of Settlement with the Commonwealth of Australia regarding the Australia SH-2G(A) program. Other than these changes, there have not been any material changes to the risk factors disclosed in Item 1A of our Form 10-K for 2007.

The current economic conditions may have an impact on our future operating results.

With the current economic downturn in the financial markets, the company's operating results and liquidity may be impacted in several ways including:

- the inability to obtain further bank financing, which may limit our ability to fully execute our strategy in the short term;
- higher interest rates on current borrowings which would limit our free cash flow;
- changes in the relationship between the US dollar and the Euro and British Pound could positively or negatively impact our financial results;
- a decrease in the market value of our pension assets which could lead to increased pension expense and contributions in future years;
- less activity relative to capital projects and planned expansions;
- increased bad debt reserves or slower payments from customers; and,
- less order activity from our customers particularly in the Industrial Distribution and Specialty Bearings segments, which would result in lower operating profits as well as less absorption due to the decreased business base.

We are currently evaluating opportunities for future financing, monitoring current borrowing rates, routinely reviewing overdue receivables and working with our customers to ensure a minimal impact on our businesses.

The Boeing Company IAM strike could have an impact on certain of our aerospace segments.

Although our aerospace segments provide a wide variety of products to many different customers in both the commercial and military markets, certain segments may be impacted by the IAM strike at Boeing. In particular, our Aerostructures segment provides fixed wing trailing edge assemblies for the Boeing 777 and 767. This is our third largest program at the Aerostructures Jacksonville facility. Shipments under this program may be delayed from the fourth quarter of 2008 despite the resolution of the strike since delivery schedules may have shifted. Additionally, sales in support of Boeing aircraft, through direct contracts and subcontract work, including aftermarket are approximately 25%-30% of the Specialty Bearings segment's work. The strike could have an impact on this segment's sales for the rest of 2008 as current orders are pushed out and future orders are delayed.

Overall, the company does not believe that the strike will have a significant impact on our overall financial performance as we believe that we have sufficient business with customers other than Boeing.

Our results of operations could be adversely affected as a result of goodwill impairment.

When we acquire a business, we record goodwill equal to the excess of the amount we pay for the business, including liabilities assumed, over the fair value of the tangible and intangible assets of the business we acquire. The Financial Accounting Standards Board ("FASB") issued SFAS No. 142, "Goodwill and Other Intangible Assets", which provides that goodwill and other intangible assets that have indefinite useful lives must be tested at least annually for impairment. SFAS 142 also provides specific guidance for testing goodwill and other non-amortized intangible assets for impairment. SFAS 142 requires management to make certain estimates and assumptions when allocating goodwill to reporting units and determining the fair value of reporting unit net assets and liabilities, including, among other things, an assessment of market conditions, projected cash flows, investment rates, cost of capital and growth rates, which could significantly impact the reported value of goodwill and other intangible assets. Fair value is generally determined using a combination of the discounted cash flow, market multiple and market capitalization valuation approaches. Absent any impairment indicators, we perform our impairment tests annually as of December 31. Impairments, if any, are recognized as operating expenses.

If at any time we determine that an impairment has occurred, we are required to reflect the reduction in value as an expense within operating income, resulting in a reduction of earnings in the period such impairment is identified and a corresponding reduction in our net asset value.

During the second quarter of 2008, we performed an impairment test with respect to the goodwill recorded by our Aerostructures segment in connection with the acquisition of our Wichita facility. This mid-year analysis was deemed to be necessary due to certain significant developments that resulted in decreased expectations regarding future sales and operating income to be generated by the Wichita facility, as well as a significant increase in the level of our investment in that operation as of June 27, 2008. Based upon the results of our analysis, we recorded an impairment charge of \$7.8 million and eliminated the Aerostructures goodwill from our balance sheet as of the second quarter of 2008.

Although we have made significant progress on the JPF fuze program recently, we performed a similar interim analysis, as of June 27, 2008, with respect to the goodwill recorded in connection with the acquisition of our Precision Products Orlando facility. This facility has experienced a variety of design and production issues associated with the JPF fuze program, which is forecasted to be its principal source of revenues and earnings in the near term, as well as increased inventory levels. Based upon the results of our analysis we have concluded the goodwill recorded by the Precision Products segment has not been impaired. We will continue to monitor this facility's performance in the future.

We have entered into a Deed of Settlement with the Commonwealth of Australia, which terminates the Australia SH-2G (A) program with a mutual release of claims.

This agreement is subject to a variety of risks and uncertainties including but not limited to:

- The company obtaining the U.S. Government approval necessary to transfer title to the inventory;
- Proper valuation of the inventory once U.S. Government approval occurs and transfer of title has taken place;
- The potential absence of a market for the aircraft and spare parts;
- Risk of the inventory becoming obsolete over time resulting in the company recording a lower of cost or market adjustment;
- The additional costs that may be necessary to transfer, store and track the inventory.

We have already begun to actively market these aircraft to interested customers to minimize the impact of these risks going forward.

Our financial performance is largely dependent on the conditions of the aerospace industry.

The combined Aerospace Segments' results are directly tied to the economic conditions in the commercial aviation and defense industries. As a result, changes in economic conditions may cause customers to request that firm orders be rescheduled or canceled, which could put a portion of our backlog at risk. Additionally, a significant amount of work that we perform under contract tends to be for a few large customers.

The aviation industry tends to be cyclical, and capital spending by airlines and aircraft manufacturers may be influenced by a variety of factors including current and future traffic levels, aircraft fuel pricing, labor issues, competition, the retirement of older aircraft, regulatory changes, terrorism and related safety concerns, general economic conditions, worldwide airline profits and backlog levels.

The defense industry is also affected by a changing global political environment, continued pressure on U.S. and global defense spending, U.S. foreign policy and the level of activity in military flight operations. Changes to the defense industry could have a material impact on several of our current aerospace programs, which would adversely affect our operating results. To mitigate these risks, we have worked to expand our customer and product base to include both commercial and military markets.

Furthermore, because of the lengthy research and development cycle involved in bringing new products to market, we cannot predict the economic conditions that will exist when a new product is introduced. A reduction in capital spending in the aviation or defense industries could have a significant effect on the demand for our products, which could have an adverse effect on our financial performance or results of operations.

Competition from domestic and foreign manufacturers may result in the loss of potential contracts and opportunities.

The aerospace markets in which we participate are highly competitive and we often compete for work not only with large OEMs but also sometimes with our own customers and suppliers. Many of our large customers may choose not to outsource production due to, among other things, their own direct labor and overhead considerations and capacity utilization at their own facilities. This could result in these customers supplying their own products or services and competing directly with us for sales of these products or services, all of which could significantly reduce our revenues.

Our competitors may have more extensive or more specialized engineering, manufacturing and marketing capabilities than we do in some areas and we may not have the technology, cost structure, or available resources to effectively compete in the market. We believe that developing and maintaining a competitive advantage will require continued investment in product development, engineering, supply chain management and sales and marketing, and we may not have enough resources to make the necessary investments to do so.

We are also facing increased international competition. Further, our significant customers have in the past used, and may attempt in the future to use, their position to negotiate a reduction in price of a particular product regardless of the terms of an existing contract.

For these reasons, we may not be able to compete successfully in this market or against such competitors. Our strategies for our aerospace segments allow us to continue to effectively compete for key contracts and customers. For additional information on this topic, see Item 1 “Business — Competition” of our 2007 Form 10-K.

Estimates of future costs for long-term contracts impact our current operating results and profits.

For long-term contracts we generally recognize sales and gross margin based on the percentage-of-completion method of accounting. This method allows for revenue recognition as our work progresses on a contract.

The percentage-of-completion method requires that we estimate future revenues and costs over the life of a contract. Revenues are estimated based upon the original contract price, with consideration being given to exercised contract options, change orders and, in some cases, projected customer requirements. Contract costs may be incurred over a period of several years, and the estimation of these costs requires significant judgment based upon the acquired knowledge and experience of program managers, engineers, and financial professionals. Estimated costs are based primarily on anticipated purchase contract terms, historical performance trends, business base and other economic projections. The complexity of certain programs as well as technical risks and the availability of materials and labor resources could affect the company’s ability to estimate future contract costs. Additional factors that could affect recognition of revenue under the percentage-of-completion method include:

- Accounting for start-up costs;
- The effect of nonrecurring work;
- Delayed contract start-up;
- Transition of work from the customer or other vendors;
- Claims or unapproved change orders;
- Product warranty issues;
- Delayed completion of certain programs for which inventory has been built up; and,
- Accrual of contract losses.

Because of the significance of the judgments and estimation processes, it is likely that materially different sales and profit amounts could be recorded if we used different assumptions or if the underlying circumstances were to change. Changes in underlying assumptions, circumstances or estimates may adversely affect future period financial performance. We perform quarterly reviews of our long-term contracts to address and lessen the effects of these risks.

The cost and effort to start-up new programs could negatively impact our current operating results and profits.

In recent years, the company has been ramping up several new programs. These include, but are not limited to, a contract for production of the composite flight deck floor, as well as metal and composite bonded panels for the vertical stabilizer, for the Boeing 787 Dreamliner, and a contract to manufacture and assemble composite tail rotor pylons for Sikorsky MH-92 helicopters.

The time required and cost incurred to get a new program underway can be significant and includes nonrecurring costs for tooling, first article testing, finalizing drawings and engineering specifications and hiring new employees able to perform the technical work required. New programs can typically involve greater volume of scrap, higher overhead rates due to inefficiencies, delays in production, and learning curves that are more extended than anticipated, all of which can impact current period results. We have been working with our customers and leveraging our years of experience to effectively ramp up these new programs.

Our U.S. Government programs are subject to unique risks.

The company has several significant long-term contracts either directly with the U.S. government or where it is the ultimate customer, including the Sikorsky BLACK HAWK cockpit program, the JPF program, and the Boeing C-17 program. These contracts are subject to unique risks, some of which are beyond our control. Examples of such risks would include:

The U.S. Government may modify, curtail or terminate its contracts and subcontracts at its convenience without prior notice, upon payment for work done and commitments made at the time of termination. Modification, curtailment or termination of our major programs or contracts could have a material adverse effect on our future results of operations and financial condition.

Our U.S. Government business is subject to specific procurement regulations and other requirements. These requirements, although customary in U.S. Government contracts, increase our performance and compliance costs. These costs might increase in the future, reducing our margins, which could have a negative effect on our financial condition. Failure to comply with these regulations and requirements could lead to suspension or debarment, for cause, from U.S. Government contracting or subcontracting for a period of time and could have a negative effect on our reputation and ability to procure other U.S. Government contracts in the future.

Our contract costs are subject to audits by U.S. Government agencies. The costs we incur on our U.S. Government contracts, including allocated indirect costs, may be audited by U.S. Government representatives. These audits may result in adjustments to our contract costs. Any costs found to be improperly allocated to a specific contract will not be reimbursed, and such costs already reimbursed must be refunded. We normally negotiate with the U.S. Government representatives before settling on final adjustments to our contract costs. We have recorded contract revenues based upon results we expect to realize upon final audit. However, we do not know the outcome of any future audits and adjustments and we may be required to reduce our revenues or profits upon completion and final negotiation of these audits. If any audit shows improper or illegal activities, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeiture of profits, suspension of payments, fines and suspension or prohibition from doing business with the U.S. Government.

Our business is subject to potential U.S. Government inquiries and investigations. We are from time to time subject to certain routine U.S. Government inquiries and investigations of our business practices due to our participation in government contracts. Any adverse finding associated with such an inquiry or investigation could have a material adverse effect on our results of operations and financial condition.

The price volatility and availability of raw materials could increase our operating costs and adversely impact our profits.

We rely on foreign and domestic suppliers and commodity markets to secure raw materials used in many of the products we manufacture within the combined Aerospace Segments or sell within our Industrial Distribution segment. This exposes us to volatility in the price and availability of raw materials. In some instances, we depend upon a single source of supply. A disruption in deliveries from our suppliers, price increases, or decreased availability of raw materials or commodities could adversely affect our ability to meet our commitments to customers. This could also have an impact on our operating costs as well as our operating income. We try to base our supply management process on an appropriate balancing of the foreseeable risks and the costs of alternative practices. We also try to pass on increases in our costs but our ability to do so depends on contract terms and market conditions. Raising our prices could result in decreased sales volume, which could significantly reduce our profitability. All of these factors may have an adverse effect on our results of operations or financial condition. To mitigate these risks, we negotiate long-term agreements for materials, when possible.

We may make acquisitions or investments in new businesses, products or technologies that involve additional risks, which could disrupt our business or harm our financial condition or results of operations.

As part of our business strategy, we have made, and expect to continue to make, acquisitions of businesses or investments in companies that offer complementary products, services and technologies. Such acquisitions or investments involve a number of risks, including:

- Assimilating operations and products may be unexpectedly difficult;
- Management's attention may be diverted from other business concerns;
- The company may enter markets in which it has limited or no direct experience;
- The company may lose key employees of an acquired business; and
- The company may not realize the value of the acquired assets relative to the price paid.

These factors could have a material adverse effect on our business, financial condition and operating results. Consideration paid for any future acquisitions could include our stock or require that we incur additional debt and contingent liabilities. As a result, future acquisitions could cause dilution of existing equity interests and earnings per share. Before we enter into any acquisition, we perform significant due diligence to ensure the potential acquisition fits with our strategic objectives. In addition, we try to have adequate resources to transition the newly acquired company efficiently.

We rely on the experience and expertise of our skilled employees, and must continue to attract and retain qualified technical, marketing and managerial personnel in order to succeed.

Our future success will depend largely upon our ability to attract and retain highly skilled technical, managerial and marketing personnel. There is significant competition for such personnel in the aerospace and industrial distribution industries. We try to ensure that we offer competitive compensation and benefits as well as opportunities for continued development. There can be no assurance that we will continue to be successful in attracting and retaining the personnel we require to develop new and enhanced products and to continue to grow and operate profitably. We continue to work to recruit and train new personnel as well as maintain our existing employee base.

We are subject to litigation that could adversely affect our operating results.

Our financial results may be affected by the outcome of legal proceedings and other contingencies that cannot be predicted. In accordance with generally accepted accounting principles, if a liability is deemed probable and reasonably estimable in light of the facts and circumstances known to us at a particular point in time, we will make an estimate of material loss contingencies and establish reserves based on our assessment. Subsequent developments in legal proceedings may affect our assessment. The estimates of a loss contingency recorded in our financial statements could adversely affect our results of operations in the period in which a liability would be recognized. This could also have an adverse impact on our cash flows in the period during which damages would be paid. As of September 26, 2008, the company does not have any loss contingency recorded with respect to any pending litigation, as we do not believe that we have met the criteria to establish such a liability for any pending litigation matter.

We rely upon growth in our Industrial Distribution segment through development of national account relationships.

Over the past several years, more companies have begun to consolidate their purchases of industrial products, resulting in their doing such business with only a few major distributors rather than a large number of vendors. Through our national accounts strategy we have worked hard to develop the relationships necessary to be one of those major suppliers. Competition relative to these types of arrangements is significant. If we are not awarded additional national accounts in the future, or if existing national account agreements are not renewed, our sales volume could be negatively impacted which may result in lower gross margins and weaker operating results. Additionally, national accounts typically require an increased level of customer service as well as investments in the form of opening of new branches to meet our customers' needs. The cost and time associated with these activities could be significant and if the relationship is not maintained we could ultimately not make a return on these investments. One of our key strategies has been to increase our national account presence. Thus far, we have been successful with our strategy with the addition of several new large national accounts since late 2006. We will continue to focus on this endeavor through 2008 and beyond.

We could be negatively impacted by the loss of key suppliers, lack of product availability, or changes in supplier programs that could adversely affect our operating results.

Our Industrial Distribution business depends on maintaining sufficient supply of various products to meet our customers' demands. We have several long-standing relationships with key product suppliers but these relationships are non-exclusive and could be terminated by either party. If we lost a key supplier, or were unable to obtain the same levels of deliveries from these suppliers and were unable to supplement those purchases with products obtained from other suppliers, it could have a material adverse effect on our business. Supply interruptions could arise from shortages of raw materials, labor disputes or weather conditions affecting suppliers' production, transportation disruptions, or other reasons beyond our control. Even if we continue with our current supplier relationships, high demand for certain products may result in us being unable to meet our customers' demand, which could put us at a competitive disadvantage. Additionally our key suppliers could also increase pricing of their products, which would negatively affect our operating results if we were not able to pass these price increases through to our customers. We engage in strategic inventory purchases during the year, negotiate long-term vendor supply agreements and monitor our inventory levels to ensure that we have the appropriate inventory on hand to meet our customers' requirements.

Our revenue and quarterly results may fluctuate, which could adversely affect our stock price.

We have experienced, and may in the future experience, significant fluctuations in our quarterly operating results that may be caused by many factors. These factors include but are not limited to:

- Changes in demand for our products;
- Introduction, enhancement or announcement of products by us or our competitors;
- Market acceptance of our new products;
- The growth rates of certain market segments in which we compete;
- Size and timing of significant orders;
- Budgeting cycles of customers;
- Mix of distribution channels;
- Mix of products and services sold;
- Mix of international and North American revenues;
- Fluctuations in currency exchange rates;
- Changes in the level of operating expenses;
- Changes in our sales incentive plans;
- Inventory obsolescence;
- Accrual of contract losses;
- Fluctuations in oil and utility costs;
- Completion or announcement of acquisitions by us or our competitors; and
- General economic conditions in regions in which we conduct business.

Most of our expenses are relatively fixed, including costs of personnel and facilities, and are not easily reduced. Thus, an unexpected reduction in our revenue, or failure to achieve the anticipated rate of growth, could have a material adverse effect on our profitability. If our operating results do not meet the expectations of investors, our stock price may decline.

Changes in global economic and political conditions could adversely affect our domestic and foreign operations and results of operations.

If our customers' buying patterns, including decision-making processes, timing of expected deliveries and timing of new projects, unfavorably change due to economic or political conditions, there could be an adverse effect on our business. Other potential risks inherent in our foreign business include:

- Longer payment cycles;
- Greater difficulties in accounts receivable collection;
- Unexpected changes in regulatory requirements;
- Export restrictions, tariffs and other trade barriers;
- Difficulties in staffing and managing foreign operations;
- Seasonal reductions in business activity during the summer months in Europe and certain other parts of the world;
- Economic instability in emerging markets;
- Potentially adverse tax consequences; and
- Cultural and legal differences in the conduct of business.

Any one or more of such factors could have a material adverse effect on our international operations, and, consequently, on our business, financial condition and operating results.

FORWARD-LOOKING STATEMENTS

This report may contain forward-looking information relating to the company's business and prospects, including the Aerospace and Industrial Distribution businesses, operating cash flow, and other matters that involve a number of uncertainties that may cause actual results to differ materially from expectations. Those uncertainties include, but are not limited to: 1) the successful conclusion of competitions for government programs and thereafter contract negotiations with government authorities, both foreign and domestic; 2) political conditions in countries where the company does or intends to do business; 3) standard government contract provisions permitting renegotiation of terms and termination for the convenience of the government; 4) domestic and foreign economic and competitive conditions in markets served by the company, particularly the defense, commercial aviation and industrial production markets; 5) risks associated with successful implementation and ramp up of significant new programs; 6) management's success in resolving operational issues at the Aerostructures Wichita facility, including successful negotiation of the Sikorsky Canadian MH-92 program; 7) successful implementation of the Deed of Settlement agreed upon with the Commonwealth of Australia, which terminates the Australia SH-2G (A) program with a mutual release of claims; 8) receipt and successful execution of production orders for the JPF U.S. government contract, including the exercise of all contract options, successful negotiation of price increases with the U.S. government, and receipt of orders from allied militaries, as all have been assumed in connection with goodwill impairment evaluations; 9) satisfactory resolution of the company's litigation with the U.S. Army procurement agency relating to the FMU-143 program; 10) continued support of the existing K-MAX helicopter fleet, including sale of existing K-MAX spare parts inventory; 11) cost growth in connection with environmental remediation activities at the Bloomfield, Moosup and New Hartford, CT facilities; 12) profitable integration of acquired businesses into the company's operations; 13) changes in supplier sales or vendor incentive policies; 14) the effect of price increases or decreases; 15) pension plan assumptions and future contributions; 16) future levels of indebtedness and capital expenditures; 17) continued availability of raw materials and other commodities in adequate supplies and the effect of increased costs therefore; 18) the effects of currency exchange rates and foreign competition on future operations; 19) changes in laws and regulations, taxes, interest rates, inflation rates, general business conditions and other factors; and 20) other risks and uncertainties set forth in the company's annual, quarterly and current reports, and proxy statements. Any forward-looking information provided in this report should be considered with these factors in mind. The company assumes no obligation to update any forward-looking statements contained in this report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Purchases of Equity Securities

In November 2000, the company's board of directors approved a replenishment of the company's stock repurchase program providing for repurchase of an aggregate of 1.4 million common shares for use in administration of the company's stock plans and for general corporate purposes.

The following table provides information about purchases of common shares by the company during the three months ended September 26, 2008:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publically Announced Plan	Maximum Number of Shares That May Yet Be Purchased Under the Plan
6/28/2008				
7/25/2008	-	-	269,611	1,130,389
7/26/2008				
8/22/2008	-	-	269,611	1,130,389
8/23/2008				
9/26/2008	-	-	269,611	1,130,389

KAMAN CORPORATION
2003 STOCK INCENTIVE PLAN

Effective November 1, 2003

(As Amended through September 23, 2008)

1. Purpose. This Plan is designed to (a) give directors, officers and key employees of the Corporation and other persons an expanded opportunity to acquire stock in the Corporation or receive other long-term incentive remuneration in order that they may better participate in the Corporation's growth and be motivated to remain with the Corporation and promote its further development and success and (b) better align total compensation of executives of the Corporation with shareholder interests through Long-Term Performance Awards subject to specific performance criteria. The Plan includes the continuation of certain predecessor plans.

2. Definitions. The following terms shall have the meanings given below unless the context otherwise requires:

(a) "Act" means the Securities Exchange Act of 1934, as amended.

(b) "Award" or "Awards" except where referring to a particular category of grant under the Plan shall include Incentive Stock Options, Non-Statutory Stock Options, Stock Appreciation Rights, Restricted Stock Awards and Long-Term Performance Awards.

(c) "Beneficial Owner" is defined in Section 15(h)(iii)(A).

(d) "Board" means the Board of Directors of the Corporation or a Subsidiary as the context may require.

(e) "Cause" is defined in Section 15(i)(iii).

(f) "Change in Control" is defined in Section 15(h)(iii).

(g) "Code" means the Internal Revenue Code of 1986, as amended from time to time, and any successor Code, and related rules, regulations and interpretations.

(h) "Committee" means the committee of the Board established under Section 10 hereof.

(i) "Corporation" means Kaman Corporation.

- (j) “Covered Employee” means a Participant whom the Committee designates, for each Performance Period, in order to meet the Section 162(m) Exemption.
- (k) “Disability” or “Disabled” means disability or disabled as defined by Code Section 22(e)(3).
- (l) “Effective Date” is defined in Section 4.
- (m) “Eligible Person” means any person, including a person who is not an employee of the Corporation or a Subsidiary, or entity who satisfies all the eligibility requirements set forth in either Section 3(a) or 3(b) hereof, excluding, however, any member of the Committee and any alternate member of the Committee.
- (n) “Fair Market Value” of the Stock on any given date shall be the mean between the highest and lowest quoted selling prices of the Stock in the NASDAQ Global Market on such date. If there were no sales on the valuation date, “Fair Market Value” shall be the closing price of the Stock in the NASDAQ Global Market on the most recent trading day preceding the valuation date on which sales of the Stock occurred.
- (o) “Federal Income Tax Regulations” means the federal income tax regulations that implement the Code, as they may be amended from time to time and any corresponding successor regulations.
- (p) “Good Reason” is defined in Section 15(i)(iv).
- (q) “Incentive Stock Option” means a stock option qualifying under the provisions of Section 422 of the Code.
- (r) “Long-Term Performance Award” means an award under Section 9(a) below. A Long-Term Performance Award shall permit the recipient to receive a bonus payable in cash, stock or a combination of cash and stock (as determined by the Committee) upon satisfaction of such performance factors as are set out in the recipient’s individual grant. Long-Term Performance Awards will be based upon the achievement of Corporation, Subsidiary and/or individual performance factors or upon such other criteria as the Committee may deem appropriate.
- (s) “Merger” means a merger, share exchange, consolidation or similar business combination under applicable law.
- (t) “Non-Employee Director” means an individual who is (i) an “outside director,” as described in Federal Income Tax Regulations Section 1.162-27(e)(3), and (ii) an “independent director” under the listing standards of the Nasdaq Stock Market, Inc. and also meets the requirements of Rule 16b-3(b)(3)(i) promulgated under the Act, and any successor to such rule.

- (u) “Non-Employee Director Participant” means an Eligible Person, who at the time of grant of an Award is a director of the Corporation but not an employee of the Corporation or a Subsidiary.
- (v) “Non-Statutory Option” means a stock option not qualifying for incentive stock option treatment under the provisions of Section 422 of the Code.
- (w) “Optionee” means the holder of any option granted under the Plan.
- (x) “Participant” means the holder of any Award granted under the Plan.
- (y) “Performance Period” is defined in Section 9(a).
- (z) “Person” is defined in Section 15(h)(iv).
- (aa) “Plan” means the Kaman Corporation 2003 Stock Incentive Plan.
- (bb) “Predecessor Plan” means any of the Corporation’s 1973 Stock Incentive Plan, 1983 Stock Incentive Plan and 1993 Stock Incentive Plan.
- (cc) “Principal Shareholder” means any individual owning stock possessing more than ten percent (10%) of the total combined voting power of all classes of capital stock of the Corporation or of any Subsidiary.
- (dd) “Qualified Performance-Based Award” means (i) a Long-Term Performance Award or Restricted Stock Award that is intended to qualify for the Section 162(m) Exemption and is made subject to objective performance goals based on Qualified Performance Criteria as set forth in Section 15(c), or (ii) an Option or SAR having an exercise price equal to or greater than the Fair Market Value of the underlying Stock as of the date it is granted.
- (ee) “Qualified Performance Criteria” means one or more of the performance criteria listed in Section 15(c) upon which performance goals for certain Qualified Performance-Based Awards may be established by the Committee and which meet the requirements for the Section 162(m) Exemption.
- (ff) “Restricted Stock” means Stock received pursuant to a Restricted Stock Award.
- (gg) “Restricted Stock Award” is defined in Section 8(a).
- (hh) “Retirement” means retirement at or after 62 years of age in accordance with the terms of the Corporation’s tax-qualified Employees’ Pension Plan.

(ii) “Section 162(m) Exemption” means the exemption from the limitation on deductibility imposed by Section 162(m) of the Code that is set forth in Section 162(m)(4)(C) of the Code.

(jj) “Section 409A” means Section 409A of the Code, and regulations promulgated thereunder.

(kk) “Stock” or “shares” means shares of Common Stock of the Corporation.

(ll) “Stock Appreciation Right” or “Right” means a right described in Section 7.

(mm) “Subsidiary” means any corporation within the meaning of Section 424(f) of the Code.

3. Eligibility.

(a) Incentive Stock Options. Incentive Stock Options may be granted to any Eligible Persons who are full-time, salaried employees of the Corporation or a Subsidiary and who in the sole opinion of the Committee are, from time to time, responsible for the management and/or growth of all or part of the business of the Corporation.

(b) Awards Other than Incentive Stock Options. Awards, other than Incentive Stock Options, may be granted to any Eligible Persons who in the sole opinion of the Committee are, from time to time, responsible for the growth and/or the management of all or a part of the business of the Corporation or Subsidiary.

(c) Substitute Awards. The Committee, in its discretion, may also grant Awards in substitution for any stock incentive awards previously granted by companies acquired by the Corporation or one of its Subsidiaries. Such substitute awards may be granted on such terms and conditions as the Committee deems appropriate in the circumstances, provided, however, that substitute Incentive Stock Options shall be granted only in accordance with the Code.

4. Term of Plan. The Plan is effective on November 1, 2003 (the “Effective Date”) and shall continue to be effective for ten (10) years thereafter, expiring on October 31, 2013.

5. Stock Subject to the Plan. The aggregate number of shares of Stock which may be issued pursuant to all Awards granted under the Plan shall not exceed 2,000,000 shares of Stock, subject to adjustment as hereinafter provided in Section 11, which shall be in addition to all shares of Stock issued or reserved for issuance pursuant to Awards granted under any Predecessor Plan, and which may be treasury shares or authorized but unissued shares. In the event that any Award under the Plan or any Predecessor Plan for any reason expires, is terminated, forfeited, reacquired by the Corporation, or satisfied without the issuance of Stock (except in the cases of (i) Stock otherwise issuable under an Award but retained by the Corporation for payment of withholding taxes under Section 15(b) hereof; (ii) Stock otherwise issuable under a stock option but for which the Corporation has made a discretionary payment under Section 7(d) hereof and (iii) Stock underlying any Incentive Stock Option, Non-Statutory Option, or Stock Appreciation Right that is cancelled in connection with a repricing of the exercise price thereunder) the shares allocable to the unexercised portion of such Award may again be made subject to an Award under the Plan. Any award of a Stock Appreciation Right, to the extent that such Stock Appreciation Right may be settled only for cash, shall not be deemed to reduce the aggregate number of shares of Stock authorized to be issued pursuant to Awards granted under the Plan.

6. Stock Options. The following terms and conditions shall apply to each option granted under the Plan and shall be set forth in a stock option agreement between the Corporation and the Optionee together with such other term and conditions not inconsistent herewith as the Committee may deem appropriate in the case of each Optionee:

(a) Option Price. The purchase price under each Incentive Stock Option shall be as determined by the Committee but not less than 100% of the Fair Market Value of the shares subject to such option on the date of grant, provided that such option price shall not be less than 110% of such Fair Market Value in the case of any Incentive Stock Option granted to a Principal Shareholder. The purchase price per share of Stock deliverable upon the exercise of a Non-Statutory Option shall be determined by the Committee, but shall not be less than 100% of the Fair Market Value of such Stock on the date of grant. In no event shall the purchase price of any Stock be less than the par value per share of such Stock.

(b) Type of Option. All options granted under the Plan shall be either Incentive Stock Options or Non-Statutory Options. All provisions of the Plan applicable to Incentive Stock Options shall be interpreted in a manner consistent with the provisions of, and regulations under, Section 422 of the Code.

(c) Period of Incentive Stock Option. Each Incentive Stock Option shall have a term not in excess of ten (10) years from the date on which it is granted, except in the case of any Incentive Stock Option granted to a Principal Shareholder which shall have a term not in excess of five (5) years from the date on which it is granted; provided that any Incentive Stock Option granted or the unexercised portion thereof, to the extent exercisable at the time of termination of employment, shall terminate at the close of business on the day three (3) months following the date on which the Optionee ceases to be employed by the Corporation or a Subsidiary unless sooner expired or unless a longer period is provided under subsection (g) of this Section in the event of the death or Disability of such an Optionee.

(d) Period of Non-Statutory Option. Each Non-Statutory Option granted under the Plan shall have a term not in excess of ten (10) years and one (1) day from the date on which it is granted; provided that any Non-Statutory Option granted to an employee of the Corporation or a Subsidiary or to a Non-Employee Director Participant, or the unexercised portion thereof, shall terminate not later than the close of business on the day three (3) months following the date on which such employee ceases to be employed by the Corporation or a Subsidiary or the date on which such Non-Employee Director ceases to be a director of the Corporation, as the case may be, unless a longer period is provided under subsection (g) of this Section in the event of the death, Disability or Retirement of such employee or the death or Disability of such Non-Employee Director. Such an Optionee's Non-Statutory Option shall be exercisable, if at all, during such three (3) month period only to the extent exercisable on the date such Optionee's employment terminates or the date on which such Optionee ceases to be a director, as the case may be.

(e) Exercise of Option.

(i) Each option granted under the Plan shall become exercisable on such date or dates and in such amount or amounts as the Committee shall determine. In the absence of any other provision by the Committee, each option granted under the Plan shall be exercisable with respect to not more than twenty percent (20%) of such shares subject thereto after the expiration of one (1) year following the date of its grant, and shall be exercisable as to an additional twenty percent (20%) of such shares after the expiration of each of the succeeding four (4) years, on a cumulative basis, so that such option, or any unexercised portion thereof, shall be fully exercisable after a period of five (5) years following the date of its grant; provided, however, that in the absence of any other provision by the Committee, each Incentive Stock Option granted to a Principal Shareholder shall be exercisable with respect to not more than twenty-five percent (25%) of the shares subject thereto after the expiration of one (1) year following the date of its grant, and shall be exercisable as to an additional twenty-five percent (25%) after the expiration of each of the succeeding three (3) years, on a cumulative basis, so that such option, or any unexercised portion thereof, shall be fully exercisable after a period of four (4) years following the date of its grant.

(ii) The Committee, in its sole discretion, may, from time to time and at any time, accelerate the vesting provisions of any outstanding option, subject, in the case of Incentive Stock Options, to the provisions of Section (6)(i) relating to "Limit on Incentive Options".

(iii) Notwithstanding anything herein to the contrary, except as provided in subsection (g) of this Section, no Optionee who was, at the time of the grant of an option, an employee of the Corporation or a Subsidiary, may exercise such option or any part thereof unless at the time of such exercise he or she shall be employed by the Corporation or a Subsidiary and shall have been so employed continuously since the date of grant of such option, excepting leaves of absence approved by the Committee; provided that the option agreement may provide that such an Optionee may exercise his or her option, to the extent exercisable on the date of termination of such continuous employment, during the three (3) month period, ending at the close of business on the day three (3) months following the termination of such continuous employment unless such option shall have already expired by its term.

(iv) An option shall be exercised in accordance with the related stock option agreement by serving written notice of exercise on the Corporation accompanied by full payment of the purchase price in cash. As determined by the Committee, in its discretion, at (or, in the case of Non-Statutory Options, at or after) the time of grant, payment in full or in part may also be made by delivery of (i) irrevocable instructions to a broker to deliver promptly to the Corporation the amount of sale or loan proceeds to pay the exercise price, or (ii) previously owned shares of Stock not then subject to restrictions under any Corporation plan (but which may include shares the disposition of which constitutes a disqualifying disposition for purposes of obtaining incentive stock option treatment for federal tax purposes), or (iii) shares of Stock otherwise receivable upon the exercise of such option; provided, however, that in the event the Committee shall determine in any given instance that the exercise of such option by withholding shares otherwise receivable would be unlawful, unduly burdensome or otherwise inappropriate, the Committee may require that such exercise be accomplished in another acceptable manner. For purposes of this subsection (iv), such surrendered shares shall be valued at the closing price of the Stock in the NASDAQ Global Market on the most recent trading day preceding the date of exercise on which sales of the Stock occurred.

(f) Transferability. No option granted under the Plan shall be transferable by the Optionee otherwise than by will or by the laws of descent and distribution, and such option shall be exercisable, during the Optionee's lifetime, only by the Optionee.

(g) Death, Disability or Retirement of Optionee.

(i) With respect to Incentive Stock Options, in the event of the death or Disability of an Optionee while in the employ of the Corporation or a Subsidiary or while serving as a director of the Corporation, such Optionee's Incentive Stock Option, or the unexercised portion thereof, may be exercised within the period of one (1) year succeeding such Optionee's death or Disability, but in no event later than ten (10) years (five (5) years in the case of a Principal Shareholder) from the date the Incentive Stock Option was granted.

(ii) With respect to Non-Statutory Options, in the event of the death, Disability or Retirement of an Optionee while in the employ of the Corporation or a Subsidiary or in the event of death or Disability of an Optionee while serving as a Director of the Corporation, such Optionee's Non-Statutory Option, or the unexercised portion thereof, may be exercised within the period of five (5) years succeeding such Optionee's death, Disability or Retirement, but in no event later than ten (10) years and one (1) day from the date the Non-Statutory Option was granted, by the person or persons designated in the Optionee's will for that purpose or in the absence of any such designation, by the legal representative of the Optionee's estate, or by the Optionee or the Optionee's legal representative, as the case may be.

(iii) Notwithstanding anything herein to the contrary and in the absence of any contrary provision by the Committee, during any period following termination of employment by reason of death, Disability or Retirement, or cessation as a director by reason of death or Disability, during which an Optionee's Stock Option may be exercisable as provided in either subsection (i) or (ii) above, such Stock Option shall continue to vest in accordance with its terms and be and become exercisable as if employment or service as a director had not ceased.

(h) Shareholder Rights. No Optionee shall be entitled to any rights as a shareholder with respect to any shares subject to his or her option prior to the date of issuance to him or her of a stock certificate representing such shares.

(i) Limit on Incentive Stock Options. The aggregate Fair Market Value (determined at the time an option is granted) of shares with respect to which Incentive Stock Options granted to an employee are exercisable for the first time by such employee during any calendar year (under all incentive stock option plans of the Corporation and its Subsidiaries to the extent required under the Code) shall not exceed \$100,000.

(j) Notification of Disqualifying Disposition. Participants granted Incentive Stock Options shall undertake, in the Incentive Stock Option agreements, as a precondition to the granting of such option by the Corporation, to promptly notify the Corporation in the event of a disqualifying disposition (within the meaning of the Code) of any shares acquired pursuant to such Incentive Stock Option agreement and provide the Corporation with all relevant information related thereto.

7. Stock Appreciation Rights; Discretionary Payments.

(a) Nature of Stock Appreciation Right. A Stock Appreciation Right is an Award entitling the Participant to receive an amount in cash or shares of Stock (or forms of payment permitted under Section 7(d) hereof) or a combination thereof, as determined by the Committee at the time of grant, having a value equal to (or if the Committee shall so determine at time of grant, less than) the excess of the closing price of the Stock on the NASDAQ Global Market on the most recent trading day preceding the date of exercise on which sales of the Stock occurred over the Fair Market Value of a share of Stock on the date of grant (or over the option exercise price, if the Stock Appreciation Right was granted in tandem with a stock option) multiplied by the number of shares with respect to which the Stock Appreciation Right shall have been exercised.

(b) Grant and Exercise of Stock Appreciation Rights.

(i) Stock Appreciation Rights may be granted in tandem with, or independently of, any stock option granted under the Plan. In the case of a Stock Appreciation Right granted in tandem with either an Incentive Stock Option or a Non-Statutory Option, such Right may be granted only at the time of the grant of such option. A Stock Appreciation Right or applicable portion thereof granted in tandem with a given stock option shall terminate and no longer be exercisable upon the termination or exercise of the related stock option, except that a Stock Appreciation Right granted with respect to less than the full number of shares covered by a related stock option shall not be reduced until the exercise or termination of the related stock option exceeds the number of shares not covered by the Stock Appreciation Right.

(ii) Each Stock Appreciation Right granted under the Plan shall become exercisable on such date or dates and in such amount or amounts as the Committee shall determine; provided, however, that any Stock Appreciation Right granted in tandem with a stock option shall be exercisable in relative proportion to and to the extent that such related stock option is exercisable. Except as provided in the immediately preceding sentence, in the absence of any other provision by the Committee, each Stock Appreciation Right granted under the Plan shall be exercisable with respect to not more than twenty percent (20%) of such shares subject thereto after the expiration of one (1) year following the date of its grant, and shall be exercisable as to an additional twenty percent (20%) of such shares after the expiration of each of the succeeding four (4) years, on a cumulative basis, so that such Right, or any unexercised portion thereof, shall be fully exercisable after a period of five (5) years following the date of its grant. The Committee, in its sole discretion, may, from time to time and at any time, accelerate the vesting provisions of any outstanding Stock Appreciation Right.

(iii) Notwithstanding anything herein to the contrary, except as provided in subsections (c)(v) and (c)(vi) of this Section, no Participant who was, at the time of the grant of a Stock Appreciation Right, an employee of the Corporation or a Subsidiary, may exercise such Right or any part thereof unless at the time of such exercise, he or she shall be employed by the Corporation or a Subsidiary and shall have been so employed continuously since the date of grant of such Right, excepting leaves of absence approved by the Committee; provided that the Stock Appreciation Right agreement may provide that such a Participant may exercise his or her Stock Appreciation Right, to the extent exercisable on the date of termination of such continuous employment, during the three (3) month period ending at the close of business on the day three (3) months following the termination of such continuous employment, unless such Right shall have already expired by its terms.

(iv) Notwithstanding anything herein to the contrary, except as provided in subsections (c)(v) and (c)(vi) of this Section, no Non-Employee Director Participant may exercise a Stock Appreciation Right or part thereof unless at the time of such exercise he or she shall be a director of the Corporation and shall have been a director of the Corporation continuously since the date of grant of such Right excepting leaves of absence approved by the Committee; provided that the Stock Appreciation Right agreement may provide that such Participant may exercise his or her Stock Appreciation Right, to the extent exercisable on the date he or she ceased to be a director of the Corporation, during the three (3) month period ending at the close of business on the day three (3) months following the cessation of such continuous service as a director unless such Right shall already have expired by its terms.

(v) A Stock Appreciation Right shall be exercised in accordance with the related Stock Appreciation Right Agreement by serving written notice of exercise on the Corporation.

(c) Terms and Conditions of Stock Appreciation Rights. Stock Appreciation Rights shall be subject to such terms and conditions as shall be determined from time to time by the Committee, subject to the following:

(i) Stock Appreciation Rights granted in tandem with stock options shall be exercisable only at such time or times and to the extent that the related stock options shall be exercisable;

(ii) Upon the exercise of a Stock Appreciation Right, the applicable portion of any related stock option shall be surrendered.

(iii) Stock Appreciation Rights granted in tandem with a stock option shall be transferable only with such option. Stock Appreciation Rights shall not be transferable otherwise than by will or the laws of descent and distribution. All Stock Appreciation Rights shall be exercisable during the Participant's lifetime only by the Participant or the Participant's legal representative.

(iv) A Stock Appreciation Right granted in tandem with a stock option may be exercised only when the then Fair Market Value of the Stock subject to the stock option exceeds the exercise price of such option. A Stock Appreciation Right not granted in tandem with a stock option may be exercised only when the then Fair Market Value of the Stock exceeds the Fair Market Value of the Stock on the date of grant of such Right.

(v) Each Stock Appreciation Right shall have a term not in excess of ten (10) years from the date on which it is granted (ten (10) years and one (1) day in the case of a Stock Appreciation Right granted in tandem with a Non-Statutory Option); provided that any Stock Appreciation Right granted to (aa) an employee of the Corporation or a Subsidiary shall terminate not later than the close of business on the day three (3) months following the date such Participant ceases to be employed by the Corporation or a Subsidiary, except as provided in subsection (c)(vi) of this Section and excepting leaves of absences approved by the Committee, and (bb) a Non-Employee Director Participant shall terminate not later than the close of business on the day three (3) months following the date such Participant ceases to be a director of the Corporation, except as provided in subsection (c)(vi) of this Section. Such a Participant's Stock Appreciation Right shall be exercisable, if at all, during such three (3) month period only to the extent exercisable on the date his or her employment terminates or the date he or she ceases to be a director, as the case may be.

(vi) In the event of the death, Disability or Retirement of a Participant while in the employ of the Corporation or a Subsidiary or in the event of the death or Disability of a Participant while serving as a director of the Corporation, his or her Stock Appreciation Right or the unexercised portion thereof may be exercised within the period of five (5) years succeeding his or her death, Disability or Retirement, but in no event later than (i) ten (10) years from the date on which it was granted (ten (10) years and one (1) day in the case of a Stock Appreciation Right granted in tandem with a Non-Statutory Option), by the person or persons designated in the Participant's will for that purpose or in the absence of any such designation, by the legal representative of his or her estate, or by the Participant or the legal representative of the Participant, as the case may be. Notwithstanding anything herein to the contrary and in the absence of any contrary provision by the Committee, during the five-year period following termination of employment by reason of death, Disability or Retirement, or cessation as a director by reason of death or Disability, a Participant's Stock Appreciation Right shall continue to vest in accordance with its terms and be and become exercisable as if employment or service as a director had not ceased.

(d) Discretionary Payments. Upon the written request of an Optionee whose stock option is not accompanied by a Stock Appreciation Right, the Committee may, in its discretion, cancel such option if the Fair Market Value of the shares subject to the option at the exercise date exceeds the exercise price thereof; in that event, the Corporation shall pay to the Optionee an amount equal to the difference between the Fair Market Value of the shares subject to the cancelled option (determined as of the date the option is cancelled) and the exercise price. Such payment shall be by check or in Stock having a Fair Market Value (determined on the date the payment is to be made) equal to the amount of such payments or any combination thereof, as determined by the Committee.

8. Restricted Stock.

(a) Nature of Restricted Stock Award. A Restricted Stock Award is an Award entitling the Participant to receive shares of Stock, subject to such conditions, including a Corporation right during a specified period or periods to require forfeiture of such shares upon the Participant's termination of employment with the Corporation or a Subsidiary or cessation as a director of the Corporation, as the case may be, as the Committee may determine at the time of grant. The Committee, in its sole discretion, may, from time to time and at any time, waive any or all restrictions and/or conditions contained in the Restricted Stock Award agreement. Notwithstanding anything herein to the contrary, the Committee, in its discretion, may grant Restricted Stock without any restrictions or conditions whatsoever. Restricted Stock shall be granted in respect of past services or other valid consideration.

(b) Award Agreement. A Participant who is granted a Restricted Stock Award shall have no rights with respect to such Award unless the Participant shall have accepted the Award within 60 days (or such shorter date as the Committee may specify) following the Award date by executing and delivering to the Corporation a Restricted Stock Award Agreement in such form as the Committee shall determine.

(c) Rights as a Shareholder. Upon complying with paragraph (b) above, a Participant shall have all the rights of a shareholder with respect to the Restricted Stock including voting and dividend rights, subject to nontransferability and Corporation forfeiture rights described in this Section 8 and subject to any other conditions contained in the Award agreement. Unless the Committee shall otherwise determine, certificates evidencing shares of Restricted Stock shall remain in the possession of the Corporation until such shares are free of any restrictions under the Plan. The Committee in its discretion may, as a precondition of the Corporation's obligation to issue a Restricted Stock Award, require the Participant to execute a stock power or powers or other agreement or instruments necessary or advisable in connection with the Corporation's forfeiture rights with respect to such shares.

(d) Restrictions. Shares of Restricted Stock may not be sold, assigned, transferred or otherwise disposed of or pledged or otherwise encumbered. In the event of termination of employment of the Participant with the Corporation or a Subsidiary for any reason, or cessation as a director of the Corporation in the case of a Non-Employee Director Participant, such shares shall be forfeited to the Corporation, except as set forth below:

(i) The Committee at the time of grant shall specify the date or dates (which may depend upon or be related to the attainment of performance goals and other conditions) on which the nontransferability of the Restricted Stock and the Corporation's forfeiture rights with respect thereto shall lapse. The Committee at any time may accelerate such date or dates and otherwise waive or, subject to Section 13, amend any conditions of the Award.

(ii) Except as may otherwise be provided in the Award agreement, in the event of termination of a Participant with the Corporation or a Subsidiary for any reason or cessation as a director of the Corporation for any reason, all of the Participant's Restricted Stock shall be forfeited to the Corporation without the necessity of any further act by the Corporation, the Participant or the Participant's legal representative; provided, however, that in the event of termination of employment by reason of death, Disability or Retirement or cessation of service as a director of the Corporation by reason of death or Disability, all conditions and restrictions relating to a Restricted Stock Award held by such a Participant shall thereupon be waived and shall lapse.

(iii) In the absence of any other provision by the Committee, each Restricted Stock Award granted to (A) an employee of the Corporation or a Subsidiary shall be subject to forfeiture to the Corporation conditioned on the Participant's continued employment and (B) Non-Employee Director Participants shall be subject to forfeiture to the Corporation conditioned on the Participant's continued service as a director of the Corporation, and in the case of clause (A) or (B), such forfeiture rights shall lapse as follows: with respect to twenty percent (20%) of the shares subject to the Restricted Stock Award on the date one year following the date of grant, and with respect to an additional twenty percent (20%) of such shares after the expiration of each of the succeeding four (4) years thereafter, on a cumulative basis, so that such Restricted Stock shall be free of such risk of forfeiture on the date five (5) years following the date of its grant.

(e) Performance-Based Award. In the discretion of the Committee, the Corporation's forfeiture rights with respect to Restricted Stock award to a Covered Employee may be based upon Qualified Performance Criteria and the Restricted Stock Award may be designated as a Qualified Performance-Based Award.

(f) Waiver, Deferral, and Investment of Dividends. The Restricted Stock Award agreement may require or permit the immediate payment, waiver, deferral or investment of dividends paid with respect to the Restricted Stock.

9. Long-Term Performance Awards.

(a) Awards. Long-Term Performance Awards may be payable in cash, stock or a combination of cash and stock may be granted either alone, in addition to or in tandem with other Awards granted under the Plan and/or awards made outside of the Plan. Long-Term Performance Awards shall not require payment by the recipient of any consideration for the Long-Term Performance Award or for shares of Stock, if any, covered by such Award. The Committee shall determine the nature, length and starting date of any performance period (the "Performance Period") for each Long-Term Performance Award and shall determine the performance and/or employment factors to be used in the determination of the value of Long-Term Performance Awards and the extent to which such Long-Term Performance Award may be made subject to various conditions, including vesting or forfeiture provisions. Long-Term Performance Awards may vary from Participant to Participant and between groups of Participants and shall be based upon the achievement of Corporation, Subsidiary and/or individual performance factors or upon such other criteria as the Committee may deem appropriate. Performance Periods may overlap and Participants may participate simultaneously with respect to Long-Term Performance Awards that are subject to different Performance Periods and different performance factors and criteria. Long-Term Performance Awards shall be confirmed by, and be subject to the terms of, a written Long-Term Performance Award agreement.

(b) Value of Awards. At the beginning of each Performance Period, the Committee shall determine for each Long-Term Performance Award subject to such Performance Period the range of dollar values and/or numbers or dollar values of shares of Common Stock to be issued to the Participant at the end of the Performance Period if and to the extent that the relevant measures of performance for such Long-Term Performance Award are met. Such dollar values or numbers of shares of Common Stock may be fixed or may vary in accordance with such performance or other criteria as may be determined by the Committee.

(c) Adjustment of Awards.

(i) Notwithstanding the provisions of Section 9(a) hereof, the Committee may, after the grant of Long-Term Performance Awards, adjust the performance factors applicable to such Long-Term Performance Awards to take into account changes in the law or in accounting or tax rules and to make such adjustments as the Committee deems necessary or appropriate to, among other things, reflect the inclusion or exclusion of the impact of extraordinary or unusual items, events or circumstances in order to avoid windfalls or hardships to Participants, provided, however that the provisions of this Section 9(c) shall not apply to Long-Term Performance Awards granted to Covered Employees or otherwise intended to satisfy the requirements of Section 162(m) of the Code.

(ii) Notwithstanding the provisions of Section 9(a) hereof, with respect to any Long-Term Performance Awards granted to Covered Employees or otherwise intended to satisfy the requirements of Section 162(m) of the Code, the Committee retains the discretion to eliminate or decrease the amount payable to a Participant with respect to any such award.

(d) Termination.

(i) Unless otherwise provided in the applicable Long-Term Performance Award agreement or other applicable management agreement, if a Participant terminates his or her employment or his or her consultancy during a Performance Period because of death or Disability, then a prorata portion of such Long-Term Performance Award shall be deemed fully vested and fully earned by such Participant (or his or her estate), such portion to be determined by multiplying 100% of the target value of such Award by a fraction the numerator of which is the number of days from the beginning of the Performance Period to the date of such termination and the denominator of which is the total number of days during the Performance Period. Such earned portion shall be paid ninety (90) days following the date of such termination.

(ii) Unless otherwise provided in the applicable Long-Term Performance Award agreement or other applicable management agreement, if a Participant terminates his or her employment or his or her consultancy during a Performance Period because of Retirement, then such Participant shall continue to be entitled to a prorata portion of any payment with respect to the Long-Term Performance Award subject to such Performance Period in accordance with the payment terms set forth in subsection (e) of this Section 9, determined by multiplying such payment, calculated as if the Participant's employment or consultancy had not been terminated, by a fraction the numerator of which is the number of days from the beginning of the Performance Period to the date of such termination and the denominator of which is the total number of days during the Performance Period.

(iii) Unless otherwise provided in the applicable Long-Term Performance Award agreement or other applicable management agreement, if a Participant terminates employment or his or her consultancy during a Performance Period for any reason other than death, Disability or Retirement, then such a Participant shall not be entitled to any payment with respect to the Long-Term Performance Award subject to such Performance Period, unless the Committee shall otherwise determine in its discretion.

(e) Form of Payment. The earned portion of a Long-Term Performance Award shall be paid in cash between the January 1 and September 30 of the calendar year following the close of the applicable Performance Period, provided that the Committee may elect to pay up to one-third (1/3) of such amount in whole shares of stock or, at the discretion of the Committee, such earned portion may be paid in whole shares of Stock to the extent requested by the Participant. Any such shares of Stock shall be valued at their Fair Market Value at the close of business on the most recent trading day preceding the date of such payment.

(f) Reservation of Shares. In the event that the Committee grants a Long-Term Performance Award that is payable in cash or Stock, the Committee may (but need not) reserve an appropriate number of shares of Stock under the Plan at the time of grant of the Long-Term Performance Award. If, and to the extent that the full amount reserved is not actually paid in Stock, the shares of Stock representing the portion of the reserve for that Long-Term Performance Award shall again become available for award under the Plan. If shares of Stock are not reserved by the Committee at the time of grant, then (i) no shares shall be deducted from the number of shares available for grant under the Plan at that time and (ii) at the time of payment of the Long-Term Performance Award, only the number of shares actually issued to the Participant shall be so deducted. If there are not a sufficient number of shares available under the Plan for issuance to a Participant at the time of payment of a Long-Term Performance Award, any shortfall shall be paid by the Corporation in cash.

10. The Committee.

(a) Administration. The Committee shall be a committee of not less than three (3) members of the Board who are Non-Employee Directors, appointed by the Board. Vacancies occurring in membership of the Committee shall be filled by the Board. The Committee shall keep minutes of its meetings. One or more members of the Committee may participate in a meeting of the Committee by means of conference telephone or similar communications equipment provided all persons participating in the meeting can hear one another. A majority of the entire Committee shall constitute a quorum, and the acts of a majority of the members present at or so participating in any meeting at which a quorum is constituted shall be the acts of the Committee. The Committee may act without meeting by unanimous written consent. Absent some other provision by the Board, the power and responsibilities of the Committee shall be vested in and assumed by the Personnel and Compensation Committee of the Board, provided the members thereof are all Non-Employee Directors.

(b) Authority of Committee. Subject to the provisions of the Plan, the Committee shall have full and final authority to determine the persons to whom Awards shall be granted, the number of shares to be subject to each Award, the term of the Award, the vesting provisions of the Award, if any, restrictions on the Award, if any, and the price at which the shares subject thereto may be purchased. The Committee is empowered, in its discretion, to modify, extend or renew any Award theretofore granted and adopt such rules and regulations and take such other action as it shall deem necessary or proper for the administration of the Plan. The Committee must certify in writing prior to the payment of any compensation to a Covered Employee from a Qualified Performance-Based Award that Qualified Performance Criteria were met, all in the manner provided by Federal Income Tax Regulations Section 1.162-27(e) (5). The Committee shall have full power and authority to construe, interpret and administer the Plan, and the decisions of the Committee shall be final and binding upon all interested parties. No members of the Committee shall be liable for any action taken or not taken or decision made or not made in good faith relating to the Plan or any award thereunder.

11. Adjustments. Any limitations, restrictions or other provisions of this Plan to the contrary notwithstanding, each Award agreement shall make such provision, if any, as the Committee may deem appropriate for the adjustment of the terms and provisions thereof (including, without limitation, terms and provisions relating to the exercise price and the number and class of shares subject to the Award) in the event of any merger, consolidation, reorganization, recapitalization, stock dividend, divisive reorganization, issuance of rights, combination or split-up or exchange of shares, or the like. In the event of any merger, consolidation, reorganization, recapitalization, stock dividend, divisive reorganization, issuance of rights, combination or split-up or exchange of shares, or the like, the Committee shall make an appropriate adjustment in the number of shares authorized to be issued pursuant to the Plan.

12. Awards Under Predecessor Plans. Awards presently outstanding which have been granted under any Predecessor Plan shall continue to be governed and interpreted under the terms of such plans and not by the terms hereof.

13. Amendment to and Termination of the Plan. The Board may from time to time amend the Plan in such way as it shall deem advisable provided the Board may not extend the expiration date of the Plan, change the class of Eligible Persons, increase the maximum Award term, decrease the minimum exercise price or increase the total number of authorized shares (except in accordance with Section 10 hereof) for which Awards may be granted. The Board, in its discretion, may at any time terminate the Plan prior to its expiration in accordance with Section 4 hereof. No amendment to or termination of the Plan shall in any way adversely affect Awards then outstanding hereunder.

14. Status of Plan. Until shares pursuant to an Award or exercise thereof are actually delivered to a Participant, a Participant shall have no rights to or with respect to such shares greater than those of a general creditor of the Corporation unless the Committee shall otherwise expressly determine in connection with any Award or Awards.

15. General Provisions.

(a) Other Compensation Arrangements; No Right to Receive Awards; No Employment or Other Rights. Nothing contained in this Plan shall prevent the Board from adopting other or additional capital stock based compensation arrangements, subject to stockholder approval if such approval is required, and such arrangements may be either generally applicable or applicable only in specific cases. No Eligible Person shall have any right to receive Awards except as the Committee may determine. The Plan does not confer upon any employee any right to continued employment with the Corporation or a Subsidiary or upon any director or officer of the Corporation any right to continued service as a director or officer of the Corporation, nor does it interfere in any way with the right of the Corporation or a Subsidiary to terminate the employment of any of its employees or for the Corporation to remove a director or officer with or without cause at any time.

(b) Tax Withholding, Etc. Any obligation of the Corporation to issue shares pursuant to the grant or exercise of any Award shall be conditioned on the Participant having paid or made provision for payment of all applicable tax withholding obligations, if any, satisfactory to the Committee. The Corporation and its Subsidiaries shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to the Participant. In the case of Non-Statutory Options, Stock Appreciation Rights exercisable only for Stock or the lapse of restrictions or conditions pertaining to shares of Restricted Stock, the Committee in its discretion, but only upon the written request of a Participant exercising such an Award or holding such Restricted Stock, may permit such Participant to satisfy federal income tax withholding requirements occasioned by the exercise of such an Award or the lapse of such restrictions or conditions by the surrender of shares otherwise to be received on the exercise of such Award or with respect to which such restrictions or conditions have lapsed. For purposes of this subsection (b), such surrendered shares shall be valued at the closing price of the Stock in the NASDAQ Global Market on the most recent trading day preceding the date of exercise on which sales of the Stock occurred.

(c) Section 162(m) Exemption. When granting any Long-Term Performance Award, Restricted Stock Award, or other Award, the Committee may designate such Award as a Qualified Performance-Based Award, based upon a determination that the recipient is or may be a Covered Employee with respect to such Award, and the Committee wishes such Award to qualify for the Section 162(m) Exemption. The payment of an Award designated as a Qualified Performance-Based Award to an employee for any calendar year shall not exceed \$3,000,000. The maximum number of shares underlying Options and SARs that may be awarded to a Covered Employee for any calendar year shall not exceed 500,000 shares and their exercise price shall be the fair market value of the shares on the date of grant. If an Award is so designated, the Committee shall establish performance goals for such Award (other than Options or SARs which meet the definition of a Qualified Performance-Based Award under Section 2(dd)) within the time period prescribed by Section 162(m) of the Code based on one or more of the following Qualified Performance Criteria: (1) earnings per share, (2) EBITDA (earnings before interest, taxes, depreciation and amortization), (3) EBIT (earnings before interest and taxes), (4) economic profit, (5) cash flow, (6) sales growth, (7) net profit before tax (8) gross profit, (9) operating income or profit, (10) return on equity, (11) return on assets, (12) return on capital, (13) changes in working capital, or (14) shareholder return. Qualified Performance Criteria may be expressed in terms of an objective formula or standard that relates to Corporation-wide objectives or objectives that relate to the performance of a Subsidiary or a division, region, department or function within the Corporation or a Subsidiary, may be absolute in their terms or measured against or in relationship to other companies comparably, similarly or otherwise situated or other external or internal measures and may include or exclude extraordinary charges, losses from discontinued operations, restatements and accounting changes and other unplanned special charges such as restructuring expenses, acquisitions, acquisition expenses (including without limitation expenses related to goodwill and other intangible assets), stock offerings, stock repurchases and strategic loan loss provisions. Qualified Performance Criteria may, but need not, be based upon a change or an increase or positive result.

(d) Restrictions on Transfers of Shares. Although the Corporation presently intends to register under applicable securities laws all shares acquired or received by Participants under the Plan, the Corporation is not required to cause such shares to be registered under the Securities Act of 1933 or the securities laws of any State. Accordingly, the shares acquired or received may be “restricted securities” as defined in Rule 144 under said Securities Act of 1933 or other rule or regulation of the Securities and Exchange Commission. Any certificate evidencing any such shares may bear a legend restricting the transfer of such shares, and the recipient may be required to assert that the shares are being acquired for his or her own account and not with a view to the distribution thereof as a condition to the granting or exercise of an Award.

(e) Issuance of Shares. Any obligation of the Corporation to issue shares pursuant to the grant or exercise of any Award shall be conditioned on the Corporation’s ability at nominal expense to issue such shares in compliance with all applicable statutes, rules or regulations of any governmental authority. The Participant shall provide the Corporation with any assurances or agreements which the Committee, in its sole discretion, shall deem necessary or advisable in order that the issuance of such shares shall comply with any such statutes, rules or regulations.

(f) Date of Grant. The date on which each Award under the Plan shall be considered as having been granted shall be the date on which the award is authorized by the Committee, unless a later date is specified by the Committee; provided, however, in the case of options intended to qualify as Incentive Stock Options, the date of grant shall be determined in accordance with the Code.

(g) Shareholder Approval. The material terms of any Qualified Performance-Based Award that have not been approved by the Shareholders must be disclosed to and approved by the Shareholders before compensation is paid to a Covered Employee pursuant to such Award, and such compensation shall be paid to a Covered Employee only if such material terms are approved by the Shareholders, all in accordance with Federal Income Tax Regulations Section 1.162-27(e)(4).

(h) Change in Control.

(i) Subject to the payment terms set forth in Section 15(i) below and further subject to the terms of any individual employment or other similar agreement, upon the occurrence of a Change in Control (as defined below) all Long-Term Performance Awards shall be deemed fully vested and fully earned to the extent of 100% of the target value of each such Award, and shall be paid in accordance with the terms of subsection (i) of Section 15 of this Plan; and

(ii) If the Participant's employment is terminated during the thirty-six (36) month period following a Change in Control, other than (A) by the Corporation or a Subsidiary for Cause (as defined below), (B) by reason of death or Disability, or (C) by the Participant without Good Reason (as defined below), then, and only then,

(A) the vesting periods of any and all Incentive Stock Options, Non-Statutory Options and Stock Appreciation Rights granted and outstanding under the Plan shall immediately be accelerated;

(B) the restrictions and/or conditions applicable to any and all Restricted Stock Awards granted and outstanding under the Plan shall immediately lapse and be of no further force and effect;

such that each Participant holding any such Award shall have the immediate, fully vested, right to purchase, receive and/or own without risk of forfeiture any Stock that is the subject of the Award on the terms and conditions set forth in this Plan and the particular agreement respecting such Award.

(iii) As used herein, the term "Change in Control" means any of the following events, provided that such event is not also a Management Buyout (as defined below):

(A) any Person (as defined below) is or becomes the Beneficial Owner (as defined in Rule 13d-3 under the Act), directly or indirectly, of securities of the Corporation representing 35% or more of the combined voting power of the Corporation's then outstanding voting securities generally entitled to vote in the election of directors of the Corporation, provided, however, that no Change in Control will be deemed to have occurred as a result of a change in ownership percentage resulting solely from an acquisition of securities by the Corporation or a transaction described in clause (i) of paragraph (C) below;

(B) during any period of two consecutive years, individuals who, as of the beginning of such period constitute the Board (the “Incumbent Board”) cease to constitute at least a majority of the Board; provided, that any person becoming a director of the Corporation subsequent to the beginning of such period whose election, or nomination for election by the Corporation’s shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office is a result of an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of directors of the Corporation and whose appointment or election was not approved by at least a majority of the directors of the Corporation in office immediately before any such contest;

(C) there is consummated a Merger of the Corporation with any other business entity, other than (i) a Merger which would result in the securities of the Corporation generally entitled to vote in the election of directors of the Corporation outstanding immediately prior to such Merger continuing to represent (either by remaining outstanding or by being converted into such securities of the surviving entity or any parent thereof), in combination with the ownership of any trustee or other fiduciary holding such securities under an employee benefit plan of the Corporation or any Subsidiary at least 50% of the combined voting power of the voting securities of the Corporation or such surviving entity or any parent thereof outstanding immediately after such Merger, generally entitled to vote in the election of directors of the Corporation or such surviving entity or any parent thereof and, in the case of such surviving entity or any parent thereof, of a class registered under Section 12 of the Act, or (ii) a Merger effected to implement a recapitalization of the Corporation (or similar transaction) in which no Person is or becomes the Beneficial Owner, directly or indirectly, of securities of the Corporation representing 35% or more of the combined voting power of the Corporation’s then outstanding voting securities of the Corporation generally entitled to vote in the election of directors of the Corporation; or

(D) (1) the stockholders of the Corporation approve a plan of complete liquidation or dissolution of the Corporation or there is consummated the sale or disposition by the Corporation of all or substantially all of the Corporation’s assets, other than a sale or disposition by the Corporation of all or substantially all of the Corporation’s assets to an entity where the outstanding securities generally entitled to vote in the election of directors of the Corporation immediately prior to the transaction continue to represent (either by remaining outstanding or by being converted into such securities of the surviving entity or any parent thereof) 50% or more of the combined voting power of the outstanding voting securities of such entity generally entitled to vote in such entity’s election of directors immediately after such sale and of a class registered under Section 12 of the Act.

(iv) As used herein, the term “Person” shall have the meaning given in Section 3(a)(9) of the Act, as modified and used in Sections 13(d) and 14(d) thereof, except that such term shall not include (A) the Corporation or any of its direct or indirect Subsidiaries, (B) a trustee or other fiduciary holding securities under an employee benefit plan of the Corporation, (C) an underwriter temporarily holding securities pursuant to an offering of such securities, and (D) a corporation owned, directly or indirectly, by the stockholders of the Corporation in substantially the same proportions and with substantially the same voting rights as their ownership and voting rights with respect to the Corporation.

(v) As used herein, the term “Management Buyout” means any event or transaction which would otherwise constitute a Change in Control (a “Transaction”) if, in connection with the Transaction, the Participant, members of the Participant’s immediate family, and/or the “Participant’s Affiliates” (as defined below) participate, directly or beneficially, as an equity investor in, or have the option or right to acquire, whether or not vested, equity interests of, the acquiring entity or any of its Affiliates (as defined in Rule 12b-2 under the Act) (the “Acquiror”) having a percentage interest therein greater than 1%. For purposes of the preceding sentence, a party shall not be deemed to have participated as an equity investor in the Acquiror by virtue of (i) obtaining beneficial ownership of any equity interest in the Acquiror as a result of the grant to the party of an incentive compensation award under one or more incentive plans of the Acquiror (including, but not limited to, the conversion in connection with the Transaction of incentive compensation awards of the Corporation into incentive compensation awards of the Acquiror), on terms and conditions substantially equivalent to those applicable to other employees of the Corporation at a comparable level as such party immediately prior to the Transaction, after taking into account normal differences attributable to job responsibilities, title and the like, or (ii) obtaining beneficial ownership of any equity interest in the Acquiror on terms and conditions substantially equivalent to those obtained in the Transaction by all other shareholders of the Corporation or (iii) the party’s interests in any tax-qualified defined benefit or defined contribution pension or retirement plan in which such party or any family member is a participant or beneficiary. The “Participant’s Affiliates” at any time consist of any entity in which the Participant and/or members of the Participant’s immediate family then own, directly or beneficially, or have the option or right to acquire, whether or not vested, greater than 10% of such entity’s equity interests, and all then current directors and executive officers of the Corporation who are members of any group, that also includes the Participant, a member of the Participant’s immediate family and/or any such entity, in which the members have agreed to act together for the purpose of participating in the Transaction. The Participant’s immediate family consists of the Participant’s spouse, parents, children and grandchildren.

(vi) As used herein, the term “Cause” means (A) the willful refusal by the Participant to perform proper responsibilities of the Participant’s position with the Corporation or a Subsidiary, (B) a violation of law by the Participant which adversely affects the assets, financial position or reputation of the Corporation or a Subsidiary, or (C) a violation by the Participant of any code of ethics, code of conduct or similar policy maintained by the Corporation or a Subsidiary from time to time.

(vii) As used herein, the term “Good Reason” means a substantial diminution in the nature or status of the Participant’s responsibilities from those in effect immediately prior to the Change in Control.

(i) Payment Following a Change in Control.

(i) Any payment of a Long Term Performance Award required under paragraph (i) of subsection (h) of this Section shall be made at the time when the Award would otherwise have been payable by its terms, provided, however, that if the Participant experiences a separation from service, as that term is defined under Section 409A, during the twenty-four (24) month period following a Change in Control, other than by reason of death or Disability, the Participant shall be paid in accordance with subsection (i)(ii) of this Section. Solely for purposes of this Section 15(i), a Change in Control shall not include any transaction that would not be considered a change in the ownership or effective control of the Corporation, or in the ownership of a substantial portion of the assets of the Corporation, for purposes of Section 409A.

(ii) Any payment required to be made under subsection (i)(i) of this Section on account of the Participant’s separation from service shall be made on the date of separation from service referred to in subsection (i) of this Section, unless the Participant is a specified employee, as determined by the Corporation in accordance with Section 409A, at the time of separation from service, in which case payment will be made on the date that is six months and a day following separation from service.

(j) Prohibition on Assignment. The rights of Participants under this Plan are not subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, attachment, or garnishment by creditors of any Participant. No Participant shall have any power or right to transfer, assign, anticipate, hypothecate, mortgage, commute, modify or otherwise encumber any of the benefits payable hereunder nor shall any of said benefits be subject to seizure for the payment of any debts, judgments, alimony or separate maintenance of any Participant, nor be transferable by operation of law in the event of bankruptcy, insolvency or otherwise. In the event that any Participant attempts assignment, commutation, hypothecation, transfer or disposal of the benefits hereunder, such attempt shall be ineffective and shall not be given effect.

(k) Intent and Interpretation. The Corporation intends Statutory Options, Non-Statutory Options and Stock Appreciation Rights issued under this Plan to be exempt from Section 409A. The Corporation intends Long Term Performance Awards issued under this Plan to comply with Section 409A. The Plan shall be interpreted and administered in accordance with the foregoing statements of intent.

KAMAN CORPORATION

EMPLOYEES STOCK PURCHASE PLAN

As Amended through September 23, 2008

1. Purpose; Authorized Shares. The Kaman Corporation Employees Stock Purchase Plan (the "Plan") was adopted by the Board of Directors (the "Board") of Kaman Corporation (the "Corporation") on February 28, 1989 for the purpose of providing employees of the Corporation and its subsidiaries an opportunity to purchase Kaman Corporation common stock through payroll deductions during consecutive offerings commencing July 1, 1989. As of November 18, 1997, One Million Five Hundred Thousand (1,500,000) shares of the Corporation's common stock in the aggregate including shares previously authorized for issuance pursuant to the Plan but unissued as of such date were approved for purposes of the Plan by the Board. As of December 31, 2007, Four Hundred Twenty One Thousand Two Hundred Seventy-Seven (421,277) shares of common stock remained available for purchase under the Plan.

2. Offering Periods. Each offering shall be made over a period of one or more whole or partial Plan Years as determined by the Committee (as defined in paragraph 3), provided that in no event shall an offering period be greater than five (5) Plan Years.

3. Administration. The Plan will be administered by a committee (the "Committee") appointed by the Board, consisting of at least three of its members. Members of the Committee shall not be eligible to participate in the Plan. The Committee will have authority to make rules and regulations for the administration of the Plan, and its interpretations and decisions with respect to the Plan shall be final and conclusive. Absent some other provision by the Board, the power and responsibilities of the Committee shall be vested in and assumed by the Personnel and Compensation Committee of the Board.

4. Eligibility. All full-time regular employees of the Corporation and its subsidiaries, with at least three (3) months of service as of the effective date of each offering hereunder, will be eligible to participate in the Plan, subject to such rules as may be prescribed from time to time by the Committee. Such rules, however, shall neither permit nor deny participation in the Plan contrary to the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, Section 423 thereof, and regulations promulgated thereunder. To the extent consistent with Code Section 423, and regulations promulgated thereunder, the Committee may permit persons who are not full-time regular employees of the Corporation or one of its subsidiaries at the commencement of an offering period, or who have not satisfied the aforementioned three (3) month service requirement at the commencement of an offering period, to participate in such offering beginning on the date or at a specified date after such person has been a full-time, regular employee of the Corporation or one of its subsidiaries for at least three (3) months. No employee may be granted a right under the Plan if such employee, immediately after the right is granted, would own five percent (5%) or more of the total combined voting power or value of the stock of the Corporation or any subsidiary. For purposes of the preceding sentence, the rules of Section 424(d) of the Code shall apply in determining stock ownership of an employee, and stock which the employee may purchase under outstanding rights shall be treated as stock owned by the employee.

5. Participation. An eligible employee may begin participation in an offering at any time by completing and forwarding a payroll deduction authorization form to the employee's appropriate payroll location. The form will authorize a regular payroll deduction from the employee's compensation, and must specify the date on which such deduction is to commence. The authorization may not be retroactive.

6. Deductions. Payroll deduction accounts will be maintained for all participating employees. An employee may authorize a payroll deduction in terms of dollars and cents per payroll period of not less than \$1.00 or more than ten (10%) percent of the compensation of the employee during any such payroll period.

7. Deduction Changes. An employee may at any time increase or decrease the employee's payroll deduction by filing a new payroll deduction authorization form. The change may not become effective sooner than the next pay period after receipt of the form. A payroll deduction may be increased only twice and may be reduced only twice during any Plan Year of an offering period, unless any such additional change is required to permit the purchase of the whole number of shares for which rights have been granted to the employee under the provisions of paragraph 10.

8. Interest. Since the amount of time that the Corporation will be holding funds withheld from employees' compensation is minimal, no interest will be credited to employees' accounts.

9. Withdrawal of Funds. An employee may at any time and for any reason permanently withdraw the balance of funds accumulated in the employee's payroll deduction account, and thereby withdraw from participation in an offering. Upon any such withdrawal, the employee shall be entitled to receive in cash the value of any fractional share (rounded to four decimal places) allocated to such employee's account determined on the basis of the market value thereof as of the date of withdrawal. The employee may thereafter begin participation again only once during each Plan Year of an offering period. Partial withdrawals will not be permitted.

10. Purchase of Shares. Subject to the payroll deduction limitation set forth in paragraph 6 and the limitation below, each employee participating in an offering under this Plan will be granted a right to purchase shares of the Corporation's common stock which have an aggregate purchase price (determined under paragraph 11) equal to the sum of (a) up to ten percent (10%) of his or her compensation during each pay period of each offering period in which he or she participates and (b) any cash dividends reinvested in accordance with paragraph 12. In no event may an employee be granted a right which permits such employee's rights to purchase stock under this Plan, and any other stock purchase plan of the Corporation and its subsidiaries, to accrue at a rate which exceeds \$25,000 of fair market value of stock (determined at the date of grant of the right) for each calendar year in which the right is outstanding at any time. No right may be exercised in any manner other than by payroll deduction as specified in paragraph 6 or dividend reinvestment as specified in paragraph 12.

11. Purchase Price and Payment. The purchase price to participating employees for each share of common stock purchased under the Plan will be 85% of its market value at the time of purchase. Purchases of shares pursuant to the Plan shall be made on the fifteenth (15th) day of each month. The number of whole and fractional shares allocated to each employee's account as of each date of purchase shall be based upon the balance of funds in an employee's account available for the purchase of shares as of the close of the immediately preceding month. A participating employee's payroll deduction account shall be charged with the purchase price of each whole and fractional share allocated to the employee as of the date of purchase and the employee shall be deemed to have exercised a right to acquire such whole and fractional share as of such date. Additional shares covered by the participating employee's rights under the Plan will be purchased in the same manner, provided funds have again accrued in his or her account.

12. Dividends. Any cash dividends paid with respect to the shares held under the Plan shall be paid in cash to the participating employees for whom shares are so held on the basis of the number of whole and fractional shares so held or, if a participating employee so elects, such dividends shall be combined with payroll deductions, added to the funds held under the Plan, and applied to the purchase of additional shares of stock purchased pursuant to the Plan. A participating employee choosing to have dividends reinvested under this paragraph may terminate such election during an offering period by filing a written form at the appropriate payroll location, but may thereafter resume his or her election to reinvest such cash dividends only once during each Plan Year of an offering period. An election to either stop or resume dividend reinvestment will be effective with respect to the dividend payment next following receipt of the form; provided that if the form is filed within thirty (30) days before a dividend record date declared by the Board, then such election will not be effective with respect to that particular dividend declaration.

13. Stock Issuances. Shares of the Corporation's common stock will only be issued to participating employees promptly after their request or promptly after the participating employee's withdrawal from the Plan for any reason. All shares of the Corporation's common stock issued pursuant to the Plan shall be issued in uncertificated form subject to the right of any participating employee to request that his or her shares be issued in certificated form.

14. Registration of Shares. Shares of the Corporation's common stock may be registered only in the name of the employee, or if the employee so indicates on the employee's payroll deduction authorization form, in the employee's name jointly with a member of the employee's family (provided that such family member has reached the age of majority), with right of survivorship. An employee who is a resident of a jurisdiction which does not recognize such a joint tenancy may have shares registered in the employee's name as tenant in common with a member of the employee's family (provided such family member has reached the age of majority), without right of survivorship.

15. Definitions. The following terms when used herein shall have the meanings set forth below:

- a. The phrase "market value" or "fair market value" means the closing price of the Corporation's common stock in the Over-the-Counter NASDAQ Global Market, as reported in the Hartford, Connecticut local issue of The Wall Street Journal, on the business day immediately preceding the day of purchase or the effective date of the offering as the context requires.
- b. The term "subsidiary" means a subsidiary of the Corporation within the meaning of Section 424(f) of the Internal Revenue Code and the regulations thereunder, provided, however, that each consecutive offering under this Plan shall not be deemed to cover the employees of any subsidiary acquired or established after the effective date of such offering, unless so authorized by the Committee.
- c. A "Plan Year" means the calendar year.

16. Rights as a Shareholder. None of the rights or privileges of a shareholder of the Corporation shall exist with respect to (a) rights granted to a participating employee under the Plan or, (b) except as provided in paragraph 12, any fractional shares credited to the participating employee's account.

17. Rights on Retirement, Death or Termination of Employment. In the event of a participating employee's retirement, death or termination of employment, no payroll deduction shall be taken from any pay due and owing to an employee at such time, and the balance in the employee's account (including the value of any fractional shares calculated in the manner described in paragraph 9) shall be paid to the employee or, in the event of the employee's death, to the employee's beneficiary; provided, however, that in the event shares credited to the account of a deceased employee would have been issued to the employee and a joint tenant with right of survivorship as permitted in paragraph 14 if issued immediately prior to such employee's death, then such shares shall be issued to such joint tenant, if living at the time such shares are issued.

A participating employee may designate a beneficiary by completing and forwarding a beneficiary designation form to the employee's appropriate payroll location. Except where a participating employee has designated that shares allocated to such employee are to be registered in the name of the employee and a family member as joint tenants, with rights of survivorship, and such family member survives the employee, upon the employee's death, the Corporation shall transfer to the beneficiary all shares then allocated to the employee's account under the Plan. In the case of shares to be registered in the name of the employee and a tenant in common, the beneficiary shall only receive the employee's interest in such shares. The Corporation shall also transfer to the beneficiary any funds remaining in the employee's payroll deduction account at the time of the employee's death.

If the employee has no beneficiary designated, or if the beneficiary predeceased the employee, the employee's estate shall be deemed to be the employee's beneficiary.

18. **Obligation of Corporation to Purchase.** In the event of personal or family circumstances of an emergency nature, for a period of one year after the exercise of a right to purchase a share or shares as described in paragraphs 10 and 11, a participating employee shall have the right to offer such shares back to the Corporation at the price at which such shares were purchased, and the Corporation shall have the obligation to make such repurchase.

19. **Rights Not Transferable.** Rights under this Plan are not transferable by a participating employee and are exercisable during an employee's lifetime only by the employee.

20. **Application of Funds.** All funds received or held by the Corporation under this Plan may be used for any corporate purpose.

21. **Adjustment in Cases of Changes Affecting Common Stock.** In the event of any merger, consolidation, reorganization, recapitalization, stock dividend, combination, issuance of rights, split-up or spin-off of the Corporation, or the like, the number of shares approved for this Plan shall be increased appropriately and such other adjustments to the terms of this Plan shall be made as may be deemed equitable by the Board. In the event of any other change affecting such stock, such adjustments shall be made as may be deemed equitable by the Board to give proper effect to such event.

22. Amendment of the Plan. The Board may at any time, or from time to time, amend this Plan in any respect, except that, without the approval of a majority of the voting power of all shares of the Corporation then issued and outstanding and entitled to vote on the matter by applicable law, or such further shareholder approval as may be needed to comply with the requirements of Section 423 of the Code, no amendment shall be made (i) increasing the number of shares approved for this Plan (other than as provided in paragraph 21); (ii) decreasing the purchase price per share; (iii) withdrawing the administration of this Plan from the Committee; or (iv) changing the designation of subsidiaries eligible to participate in the Plan, except adding a subsidiary as provided in paragraph 15(b).

23. Termination of Plan. This Plan and all rights of employees under an offering hereunder shall terminate:

a. on the date that participating employees' accumulated payroll deductions pursuant to paragraph 6 and amounts reinvested pursuant to paragraph 12 are sufficient to purchase a number of shares equal to or greater than the number of shares remaining available for purchase. If the number of shares so purchasable is greater than the shares remaining available, the available shares shall be allocated by the Committee among such participating employees in such manner as it deems equitable, or

b. at any time at the discretion of the Board.

Upon termination of the Plan all amounts in the accounts of participating employees not applied to the purchase of shares hereunder, together with the value of any fractional shares calculated in the manner described in paragraph 9, shall be promptly refunded.

24. Government Regulations. The Corporation's obligation to sell and deliver shares of its common stock under this Plan is subject to the approval of any governmental authority required in connection with the authorization, issuance or sale of such stock.

25. Shares Used to Fund Plan. The Corporation may utilize unissued shares to fund the Plan. Purchases of outstanding shares may also be made pursuant to and on behalf of the Plan, upon such terms as the Corporation may approve, for delivery under the Plan.

26. Qualified Plan. This Plan is intended to qualify as an Employee Stock Purchase Plan as defined in Section 423 of the Code. The term "right" as used herein shall mean "option" as used in Section 423, and is used herein only to avoid confusion with "options" granted under the Kaman Corporation 2003 Stock Incentive Plan.

27. Successor Corporation. The rights and obligations of the Corporation under this Plan shall inure to and be binding upon any successor to all or substantially all of the Corporation's assets and business.

28. Business Days. If any event provided for in this Plan is scheduled to take place on a day which is not a business day then such event shall take place on the immediately preceding business day.

Exhibit 31.1

Certification Pursuant to Rule 13a-14 under the Securities and Exchange Act of 1934

I, Neal J. Keating, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Kaman Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the period presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report, based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
